*Participants asking V-safe directly for help, a call back, or guidance, and asking whether anyone reads their reports.*

### NT6-67937-42924 — 2 tranches — 7

| | |
|---|---|
| **03/01/21**<br>Dose 1 · days 1–6 | Sinus pain and tonsil swelling on R. Might be because I stopped my Zyrtec D for 3 days. Hope so. Got my vaccine in a very crowded CVS. 8+people. |
| **03/04/21**<br>Dose 1 · days 1–6 | I am never this tired. My vaccine arm hurts to raise. |
| **03/27/21**<br>Dose 2 · days 1–6 | I had a headache for four days. Your app is difficult |
| **03/28/21**<br>Dose 2 · days 1–6 | YES. My 2nd Pfizer dose was 3 weeks and 2 days after the first dose. Best CVS in MA could do. Your app does NOT ALLOW FOR SUCH VARIATIONS SO I WAS NOT ABLE TO REPORT TO YOU. I did NOT have a strong response. I had a headache for 3 days but this could be because I stopped my allergy medication 3 days prior to #2. Or not. Am concerned that I did not have a strong response and could not report this. Not sure my mention of this is data you want. Its data that is important to ME. Am I protected? Or not? Thanks for your response. |
| **03/29/21**<br>Dose 2 · 7 day | **Muscles in my Left arm WHERE I RECEIVED MY FIRST SHOT!!!*is anyone reading this?* still hurts. Pain and discomfort move from shoulder to arm. ITS BEEN 4.5 weeks. My 2nd dose in the right arm causing no problem at the moment. Somewhat upset with this app!!!!!!!!!!!!** |
| **04/19/21**<br>Dose 2 · 28 day | Muscles in arms hurt. First shot in left arm, still will hurt on occasion. Second dose in right arm, was painful Monday night into Tuesday 9,10 |
| **09/20/21**<br>Dose 2 · 6 month | The muscle in my left arm, around where I got my first dose of Pfizer at CVS, Worcester, hurts. It aches, hurts, a lot of the time. Im not confident the person giving the shot Knew what she was doing. needle was placed on a counter prior to admin |

### EGS-28827-81276 — 4

| | |
|---|---|
| **04/13/21**<br>Dose 2 · days 1–6 | Diagnosed yesterday evening of having Bells Palsy by a doctor. I have a drooping on the right side of my face. |
| **04/14/21**<br>Dose 2 · days 1–6 | Bells Palsy |
| **04/15/21**<br>Dose 2 · days 1–6 | Bells Palsy |
| **04/16/21**<br>Dose 2 · days 1–6 | **Bells palsy and even though I reported this the past four days no one has contacted me. Is anyone reading this?** |

### 3NA-18947-86634 — 3

| | |
|---|---|
| **04/16/21**<br>Dose 1 · days 1–6 | Slight pain in my testicles yesterday. Better today. |
| **04/18/21**<br>Dose 1 · days 1–6 | **Is anyone reading this?? I like someone to call me.** |
| **04/19/21**<br>Dose 1 · days 1–6 | **No one has called me. (b)(6)** |

### NV5-14487-43285 — 2 tranches — 3

| | |
|---|---|
| **03/22/21**<br>Dose 1 · 7 day | Ive been sick for 11 days so had blood drawn today. — Feels like little pins pricking my skin. |
| **04/09/21**<br>Dose 1 · 28 day | **Im still dizzy, headache and exhausted. Chills came back today. The immunologist has me on steroids to offset my immune system in overdrive. Its been one month of being debilitated. All because I had antibodies and got the vaccine as directed. — Is anyone reading this? How has no one contacted me yet.** |
| **09/10/21**<br>Dose 1 · 6 month | Vaccine triggered 3 bacterial infections latent in my body: Lyme, bartonella Elizabethae and spp. Debilitated and bedridden while on 2 antibiotics. Started to get better and bedridden again. On steroids, 3 antibiotics, infections out of control. — Need to start IVIG infusions |

### L9M-22754-99453 — 3

| | |
|---|---|
| **02/27/21**<br>Dose 2 · 7 day | Internist — I am 12 days in. Still experiencing, dizziness, tinnitus, full head, nausea. |
| **03/16/21**<br>Dose 2 · 28 day | **Dizziness nausea no appetite headaches why doesnt someone call me. Its happening to a lot of people. — Ent neurologist** |
| **03/23/21**<br>Dose 2 · 35 day | **Nobody is reading this. There are people having serious side effects, vertigo, dizziness, tinnitus, nausea lasting for weeks and nobody is addressing this. — Ent, neurologist, PT** |

### NB6-20505-77609 — 3 tranches — 8

| | |
|---|---|
| **12/31/20**<br>Dose 1 · day of shot | Mild dizziness |
| **01/16/21**<br>Dose 1 · 14 day | Mostly just some fatigue and headaches. Could be from other health conditions then the vaccine. |
| **01/21/21**<br>Dose 1 · 21 day | Started running a fever today. Going for a Covid test tomorrow. |
| **01/28/21**<br>Dose 1 · 28 day | Fever, Pancytopenia |
| **02/04/21**<br>Dose 1 · 35 day | Was hospitalized for pancytopenia and what looked like viral sepsis with no cause found. The infectious disease doctor now says that it could have been a reaction to the vaccination and has advised against the second one at this time. — Hospitalized for a week |
| **02/11/21**<br>Dose 1 · 42 day | I would like a phone call from someone to discuss. As previously charted Ive experienced some sort of pancytopenia that is now improving but the doctors question whether the immunization could have attributed to the issues |
| **04/01/21**<br>Dose 1 · 3 month | **No one ever contacted me or my MD despite a report and several calls. I had pancytopenia, inflammatory response, and sepsis & was hospitalized after #1. Im improved but issues left over. Please call me or my MD. Still unsure about if can take #2.** |
| **07/01/21**<br>Dose 1 · 6 month | Continued follow up on previous issues, continued shortness of breath and tachycardia with activity, newly diagnosis premature ovarian failure. — Continued care by speciality team for prior issues |

## TE5-16571-44990 9 tranches 28

| | |
|---|---|
| **01/26/21**<br>Dose 1 · day of shot | Galloping itchyness all over my front and back torso and pain to the left of my right hamstring within 5 minutes of the shot |
| **01/27/21**<br>Dose 1 · days 1–6 | Itchyness, yesterday after the shot, I could only drive 2 miles of a 12 mile trip home. I got tunnel vision and couldn't focus on the road. Had to pull over and change drivers. Have rotating or galloping whack-a-mole type of itchyness for 10 seconds then it is itchy somewhere else for 10 to 15 seconds. My scalp has the same whack-a-mole galloping itchyness for 10 to 15 seconds then another part of the scalp and etc. |
| **01/29/21**<br>Dose 1 · days 1–6 | Still have some itchyness today.I never got a follow-up data information to share on the first day of the injection. Two years ago I had DVT Blood Clots in my Right Leg and Extensive Multiple Bilateral Pulmonary Embolisms which required Experimental Emergency Thrombolysis Surgery with tPA. On Tuesday, about 5 minutes after my COVID-19 Moderna injection, I experience severe pain on the posterior of my right leg above the knee bend and left of my hamstring. There was severe pain for about 10 minutes then it went away. About 2 hours later, on my right leg (the same leg) where I had the DVT blood clots 2 years earlier, I experience major pain to the right quadricep area for about two hours then it went away. Please have someone contact me from the CDC by telephone at (b)(6) because I feel it should be reported about the side effects I experience as being a DVT Blood Clot survivor and Pulmonary Embolism survivor. Today the galloping whack a mole itchyness is about 95% gone now. Thank you,(b)(6) |
| **01/30/21**<br>Dose 1 · days 1–6 | Yesterday I had stiffness in my left knee area. It was ok but still and tender. Today under my kneecap, I have INFLAMATION and can barely walk. I did NOT fall or injury it. I hardly do anything during the day. I ice my knee on and off all day today and can barely walk. What is going on? Two years ago I had DVT blood clots in the other leg. What did this vaccine do to my kneecap (below and underneath the kneecap area)? It is in the Meniscus area and I have never injured my left knee ever. If I don't start feeling better, I am going to go and receive further medical advice about my joint pain in my left knee. Besides my knee, the itchyness is now gone. |
| **01/31/21**<br>Dose 1 · days 1–6 | Again my left knee is swelled and causing extreme pain. I did NOT fall or injure it. It is around the meniscus area. I can barely walk. It is awful. I keep icing it and it is not helping. I'm in severe pain. What the hell is going on with the vaccine inside of my body. I had DVT blood clots 2 years ago. What is going on? I'm tired all day long. I'm getting chills now. I am nauseated. |
| **02/01/21**<br>Dose 1 · days 1–6 | **I have extreme pain in my left knee. I feel the vaccine reduced my synovial fluid in my knee. It has caused CAVITATION in my synovial joints because there are high frequency cracking sounds in my knee. I have no prior knee injuries. I am on Eliquis blood thinners for life. What is in the vaccine that causes a reduction in synovial fluid? CDC Please call me at (b)(6). I'm in pain.** |
| **02/02/21**<br>Dose 1 · 7 day | **Had to go to Primary Care Physician because of the swelling to the left knee and now right foot and lower shin area. PCP sent me to Hospital for x-rays and x-rays came back negative for injuries. The swelling is caused by a reaction of the vaccine. I have only left the house only 1 time in the past 14 days and that was to get the vaccine. I didn't fall and x-rays prove no injury. Foot is extremely swollen and is the same foot which had DVT blood clots two years ago. I have been on Eliquis ever since. What is in the vaccine that is reacting with the Eliquis blood thinner. Please help me!!! — The itchyness is gone. My left knee is still swollen and now my right foot and lower shin/achilles area is swollen. Had to go to Primary Care Physician because of the swelling and pain. Was sent to (b)(6) Hospital for x-rays which came back negative for injuries. So there is a reaction to the vaccine.** |
| **02/09/21**<br>Dose 1 · 14 day | I had to go to my PCP on 2/2/21 & was examined about my swollen left knee & Audible Crepitus Joint noise when walking since the vaccine given. On 2/4/21, had to go to Emergency Room because of swollen ankles & fear of blood clots. — I spoke with my Hematologist, (b)(6) about my allergic reaction to the Moderna vaccine where my left knee and both ankles swelled up. My right ankle really swelled up to twice the normal size. I was instructed to go the Emergency Room to get an Ultrasound of both legs to try to rule out DVT Blood clots. I have a history of DVT Blood clots and my ankles became swollen after receiving the Moderna vaccine. After disclosing all of my conditions for7 days on vsafe, why didn't the CDC contact me about why the vaccine causes swollen ankles to people who had prior blood clots? Why?I disclosed it for at least 7 days and should have notified of possible reactions and side effects, WHY? I had to go the ER? |
| **02/17/21**<br>Dose 1 · 21 day | **Still have a little swelling in my right ankle. It is not as bad as last week but there is minimal swelling now. Why hasn't anyone from vsafe or the CDC contact me about my Adverse Reaction to the Moderna vaccine?** |
| **02/23/21**<br>Dose 2 · day of shot | Abdominal/intestinal gas but not diarrhea. My face fills a little flush like someone feels after taking Niacin, but I'm 1000 percent better than 4 weeks ago after the 1st dose. There is a minimal itch or there around my cheekbones or on my neck but very minimal feeling. |
| **02/24/21**<br>Dose 2 · days 1–6 | The itchyness is gone. The intestinal gas is gone. I have a slight headache but it is very minimal. At least this time with the second shot my knee or ankles did NOT swell like before. |
| **02/27/21**<br>Dose 2 · days 1–6 | I feel a lot better with the 2nd shot than the first shot which caused my left knee to swell and both ankles to swell enormously. The 2nd shot my ankles did NOT swell. |
| **02/28/21**<br>Dose 2 · days 1–6 | I am still tired and fatigued. I did some research on the ingredients in the Moderna vaccine and discovered "Tromethamine" What are some side effects that I need to call my doctor about right away?Shortness of breath, a big weight gain, or SWELLING in the arms or LEGS. Why wasn't I contacted by the CDC or Moderna about the information on Tromethamine and my leg swelling when I had to go to the Emergency Room at (b)(6) Hospital in(b)(6) PA when I received an Adverse reaction from the Vaccine? I reported the Swelling of the ankles in my VAERS/Vsafe reporting system. |
| **03/02/21**<br>Dose 2 · 7 day | I had extreme fatigue and tiredness today. I took two afternoon naps because I was so tired. I am on Eliquis (blood thinner) for life. I think the Moderna vaccine and the Eliquis has cause me extreme fatigueness. I believe the Tromethamine ingredient in the vaccine cause my knee and both ankles to swell on the first vaccine shot. My ankles are okay on the second shot but I am fatigued. |
| **03/09/21**<br>Dose 2 · 14 day | Still experiencing tiredness and extreme fatigue. No swelling of ankles like after the first shot. |
| **03/16/21**<br>Dose 2 · 21 day | I am extremely tired.I am so fatigued. My fingers& slightly swollen and when my fingers are flexed, they become white. I have fluid build up in my fingers, i went to a doctor yesterday and he discovered my ankles were swollen after I took my sock off — Office visit |
| **03/25/21**<br>Dose 2 · 28 day | I am exhausted, tired and fatigued all day long. I still experience Shortness of Breath when walking up steps and my heart becomes tachycardic and I become lightheaded. I am tired and don't feel well at all. I feel awful. |

| | |
|---|---|
| **03/30/21**<br>Dose 2 · 35 day | I am so exhausted, tired and fatigued. I am really exhausted. |
| **04/06/21**<br>Dose 2 · 42 day | I am continuing to suffer from extreme tiredness and fatigue. It is awful. I am second guessing myself about getting the vaccine in the 1st place.I am experiencing migraines every couple of days when previously there were none. I am miserable. |
| **05/25/21**<br>Dose 2 · 3 month | I am continually having swelling of my right ankle and pain in my big toe.If I stand upright for more than a total of two hours, my ankle swells & big toe swells.I am fatigued & tired with no energy.Getting an EMG NCS test.I feel worse now. — Outpatient testing of leg for swelling and pain |
| **08/25/21**<br>Dose 2 · 6 month | I developed Type 2 Diabetes recently & I'm on Jardiance as my medication.I am urinating 20 to 22 times a day still. It may not be associated with the Vaccine.Im still Fatigued& Exhausted since receiving the vaccine but the swelling in ankle is gone |
| **10/27/21**<br>Dose 3 · 35 day | Day after booster shot #3, I slept &was very fatigued.Day 14, rt ankle swelled up extremely,Day 15,16,17, couldn't even walk or put on my rt shoe.I could not function.Previously had DVT blood clots in right leg 3yrs earlier, had PEs& on Eliquis 4life |
| **11/05/21**<br>Dose 3 · 42 day | Still tired & fatigued all day long.Today had CBC Blood work completed & I have extremely high Monocytes.My body is fighting an internal infection since I've been vaccinated.I have monocytosis. I never had it before vaccinations.Fatigued Exhausted. — Bloodwork done at (b)(6) Hospital, (b)(6) PA |
| **12/22/21**<br>Dose 3 · 3 month | Since last CDC contact I had an extreme episode of Gout where my left was swollen for 3 weeks.Im still tired& fatigued all day long and dont feel well. |
| **03/23/22**<br>Dose 3 · 6 month | Have redness on the skin of both ankles & lower feet during early hours of morning when when getting up & having to urinate.Skin is red, shiny and itchy then goes away in 5 minutes. Received 4th Moderna shot or 2nd booster on 02/21/2022 — In person visit with podiatrist. |
| **05/24/22**<br>Dose 4 · 3 month | Lately I've been really tired and sleeping 15 to 16 hours a day, exhausted. Had a Reflux Doppler Ultrasound and discovered I have Reflux of my vein filters/valves. Still have swelling and discoloration of my feet purple coloring, — outpatient tests at (b)(6) Health Network. |
| **08/22/22**<br>Dose 4 · 6 month | My right knee in the crease has had pain,stiffness and inflammation for the past two weeks. |
| **11/02/22**<br>Dose 5 · 42 day | I just saw my Urologist and now have Prostatitis and an infection and now on Cipro antiviral medication. — visited Urologist in office visit. |

| **02/03/21**<br>Dose 1 · day of shot | Phone call |
| **02/04/21**<br>Dose 1 · days 1–6 | Phone call to my dr at clinic — Yesterday had rapid heartbeat show up at 4.30pm. Wasnt sure if from shot, a separate episode of my supraventricular tachycardia, or the vaccine triggering my own tachycardia. Called physician to find out if taking my prescribed med atenolol was ok. By time I got reply from office, rapid heartbeat had mostly resolved. I attempted to count heartbeats at about 112/minute at height of episode (not sure) but my normal tachycardias have been clocked as fast as one time at 284 years ago. Not sure how to rate, probably disconcerting but not severe since Im used to tachycardia sensations. |
| **02/07/21**<br>Dose 1 · days 1–6 | Maybe more like loose stools/some gut cramping last two days. But could be related to my IBS or sometimes my normal gut issues ( same as rapid heartbeat could be my tachycardia two days ago). Took some Pepto and is lessening now. |
| **02/24/21**<br>Dose 2 · days 1–6 | I have had no symptoms today but on Saturday (2/20) I did following my 10.30am shot. At approximately 9pm Saturday, I quite suddenly starting feeling poorly after having been fine all day. Within a half hour after 9pm, I had to stop everything I had been doing a lay down for the night. I felt like a ton of bricks had hit me all at once. I aches in every muscle and bone, had headache, some chills, much fatigue, and felt flu-like all over. Night was difficult and uncomfortable and got little sleep. Felt much the same all day Sunday (2/21), Sunday night and into Monday morning. By Monday noon, I seemed to be back to normal. Have felt fine since then and today is Wednesday. No other symptoms have surfaced since Monday. |
| **02/26/21**<br>Dose 2 · days 1–6 | Going back to first evening after second shot, much pain in arm second time. Had to put ice pack on arm overnight to ease. |
| **02/27/21**<br>Dose 2 · 7 day | Light diarrhea and runny nose and cough during late night/early morning hours, but all disappeared by morning. Not sure if from second shot or because of something else. |
| **03/06/21**<br>Dose 2 · 14 day | Could have come from anywhere since Ive been out and about, but have had runny, drippy nose since late this morning. Feel fine but have had to blow nose frequently. Took aspirin (since 2 weeks beyond second shot) to see if it would dry it up. |
| **03/13/21**<br>Dose 2 · 21 day | Relationship to vaccine? Noticed difference past week. All have varied reactions to virus/shots. So could be related. Menopause hot flashes were lessening after 20 years of them, in last week have shot up again. Maybe got triggered by second shot? |
| **11/02/21**<br>Dose 3 · days 1–6 | Third day since shot. 1st: evening/night: hurt everywhere, exhausted, headache. Day 2: hurt everywhere but even more, headache, tired, sore arm, diarrhea. Day3: bad midsection aches, diarrhea, not as sick/tired. Arm very sore yet. |
| **11/03/21**<br>Dose 3 · days 1–6 | All above symptoms checked are now much reduced from last 2 days. Still a little residual effects but much reduced. |
| **11/05/21**<br>Dose 3 · days 1–6 | Still have some residual minor pain at injection site. Some lingering tiredness but otherwise other symptoms seem to be gone. |
| **11/07/21**<br>Dose 3 · 7 day | Still a tiny bit of soreness on arm injection site. |
| **01/30/22**<br>Dose 3 · 3 month | Diagnosed with endometrial hyperplasia, biopsy done, no results yet. No idea if diagnosis result of vaccination. How to determine that, yet it was something new and sudden. Symptoms started after two initial shots but before booster. |
| **05/01/22**<br>Dose 3 · 6 month | **On March 7, had complete hysterectomy for uterine cancer. On April 19, began 4 preventive radiation treatments, now finished. Can someone contact me please regarding this health event? — Above checked were all involved in kast 3 months of tests, surgery, and treatments.** |
| **05/19/22**<br>Dose 4 · 7 day | These were effects I felt the two days following 2nd booster on 5/11/22. They lasted for 2 days. 4th time have felt mostly same effects after shots. |
| **10/26/22**<br>Dose 5 · days 1–6 | On Monday 10/24, 4 hrs after 5th dose had sudden great exhaustion, no ambition:concentration, many overall aches:pains, headache, huge pain at shot site, flat out in back for 1-1/2 days. 5 doses, same intense reaction to all. |
| **10/29/22**<br>Dose 5 · days 1–6 | This 5th shot seems to have taken a bit more "starch" out of me than the other ones, maybe bc it's a beefed up and/or different makeup than previous 4. Not bouncing back as quickly from 5th as from previous 4. |
| **10/30/22**<br>Dose 5 · days 1–6 | Same as previous days. Think I'm improving but shit arm still somewhat sore at injection site. |
| **11/01/22**<br>Dose 5 · 7 day | Very slight injection-site arm pain yet. |

## LRQ-21509-45530 3 tranches 8

| | |
|---|---|
| **01/14/21**<br>Dose 1 · days 1–6 | Paramedics. — On Wednesday I was at a cardio class when I became lightheaded and the next thing I knew the paramedics had me on a stretcher taking me to the ambulance. The shot hurt when I got it and burned the doctor said I was OK that night my legs itched so bad that I one of them bled, and generally my head just felt different. Not quite a headache but maybe pressure. I was not admitted to the hospital because I was so hungry and was told that they would not admit me and feed me, if I were hungry I should go eat first. I did have an IV, my blood pressure was 81 over some thing, and two CAT scans came back normal. I think if I had not been in the cardio class I would have probably gotten by with fewer symptoms, and certainly not ended up in an ambulance. I am not going to go to another class until next week, but will walk tomorrow. Today I am just slightly off my gamethe quarter to fifty cent size bruise at the injection site is almost gone today . |
| **02/11/21**<br>Dose 2 · days 1–6 | Fever was 101 before starting Tylenol |
| **02/12/21**<br>Dose 2 · days 1–6 | Continued neck pain, and just general weak, feeling out of it condition. No energy. Alternate between chair and bed |
| **02/15/21**<br>Dose 2 · days 1–6 | I tried to go for a short walk this morning and just could not get enough air through my mask. Before I left I had not felt fatigued, but very soon did it again. Nap required |
| **02/16/21**<br>Dose 2 · 7 day | I have had a slight neck injury, and so I saw my chiropractor to make sure that none of my symptoms had anything to do with that injury. The answer is my neck is fine — Today has been a terrible day. I have been extremely fatigued and had difficulty getting enough oxygen when going up the steps with a mask on I dont exactly have a rash but I have itching that I am just starting to attach to the COVID-19 shot. I have been to the doctor today about a neck issue, and have been told my neck is fine that this is COVID-19. My blood pressure, my pulse,My oxygen are all normal. Im very tired of feeling awful |
| **03/02/21**<br>Dose 2 · 21 day | **I have less fatigue, and my head has gone from brain freeze to a feeling of just being off and not able to function normally it has been over three weeks. Please help — Primary care including blood and urine test. Told I was fine and next move would be to go to the ER.** |
| **03/16/21**<br>Dose 2 · 35 day | My head. Not dizzy but just not right — See dr on Friday |
| **05/11/21**<br>Dose 2 · 3 month | Rash on back — I was at the doctor about my neck pain, and just happened to mention I horrible each on my back |

| **10/08/22**<br>Dose 5 · 28 day | New diagnosed with calcium pyrophosphate dihydrate deposition (CPPD) in my right hip..pain, fatigue, nausea.About 12 hours after bivalent (sept.10), my muscles/joints all began to hurt..lasted 5 days.8 days later the pain started again focused in hip — Doppler ultrasound, x-rays, office visit to doctor |
| **10/15/22**<br>Dose 5 · 35 day | Besides the diagnosis of CPPD in my right hip (noted this on last check-in) I continue to have muscle and joint pain everywhere..now it wakes me up while sleeping. |
| **12/12/22**<br>Dose 5 · 3 month | CCPD-calcium pyrophosphate dihydrate deposition in right hip..developed a week after bivalent.I'm not sure that the shot had anything to do with this. — My doctor's office |

## L2S-64092-03355 4 tranches 17

| | |
|---|---|
| **03/14/21**<br>Dose 1 · days 1–6 | elevated heart rate - 92bpm, usually 79-84. Not an emergency but noticing it. |
| **03/15/21**<br>Dose 1 · days 1–6 | fast resting heart rate (91 bpm)...Is normally 79-84 bpm |
| **03/18/21**<br>Dose 1 · 7 day | Slightly faster resting HR than normal. |
| **04/02/21**<br>Dose 2 · days 1–6 | Happiness to see my immune system at work! Also, I should convey to you that I've been taking certain supplements specifically to yield a good immune response: melatonin, mushroom capsules, NAC, resveratrol, andrographis. P.S. Injection site on arm is black and purple! Not red! (But I answered "red" because this was the darkest olption for coloration.) |
| **04/03/21**<br>Dose 2 · days 1–6 | TINNITUS! a high-pitched, constant screech. Hoping it goesbaway as I recover from my flu-like experience. If not, I will report this to VAERS and to my doctor. |
| **04/04/21**<br>Dose 2 · days 1–6 | Tinnitus still unabated from its firsr appearance yesterday. Kept me up some, both nights, and it might be what's givijg me headaches because they're appearing only at night. Others have also had tinnitus appearing after their Covid vaccines. This is not goid for me as I am a classical musician and I need relative silence as the background of my life in order to find the inner peace to access my creativity. https://www.drugdiscoverytrends.com/tinnitus-reports-grow-amid-covid-19-vaccinations/ I am worried! Although I am thankful to be vaccinated. |
| **04/05/21**<br>Dose 2 · days 1–6 | Tinnitus still not abating. Injection site is still black and purple. P.S. I'm going to answer "not bad enough to see a doctor" until my 2 weeks post-vaccine are concluded. I do want to see him about the tinnitus, but not till I'm fully vaccinated. |
| **04/06/21**<br>Dose 2 · days 1–6 | Ongoing tininitus. Never had it even once before the vaccine. |
| **04/07/21**<br>Dose 2 · days 1–6 | Ongoing tinnitus. Injection site still black and purple with tiny red spot in center. |
| **04/08/21**<br>Dose 2 · 7 day | Tinnitus unabated. Injection site still black and purple with tiny pink center. |
| **05/15/21**<br>Dose 2 · 42 day | Tinnitus — Called the office to make the report and see if he wanted to see me. He didn't. |
| **12/25/21**<br>Dose 3 · days 1–6 | My tinnitus, which appeared the morning after my 2nd Pfizer vax, has grown louder and more intrusive after this booster. I'm despairing of ever getting another Covid booster for fear of my mental health response. [name] died of Covid. This is so ha |
| **12/26/21**<br>Dose 3 · days 1–6 | My tinnitus from the 2nd Pfizer shot, which worsened with the Moderna booster, continues to be worse and more intrusive. "Crickets" or shrill solid tones go with me everywhere I go. Am afraid to get any more boosters. Makes me so anguished! |
| **12/27/21**<br>Dose 3 · days 1–6 | Tinnitus still bad (from Pfizer shot #2 and Moderna booster worsened). Why isn't the CDC addressing people's tinnitus reaction? It's definitely for real for lots of people. Why lie to the public as though we don't exist? |
| **12/28/21**<br>Dose 3 · days 1–6 | Ongoing, worsened tinnitus that 1st appeared after 2nd Pfizer shot but louder after Moderna booster. HORRIBLE!! Bad quality of life! Please talk about this with other adverse effects?!?!!!!!!! |
| **12/29/21**<br>Dose 3 · 7 day | **Vaccine-induced (apparently so) and -worsened tinnitus continues unabated. Please help with finding solutions! Don't see us as "casualties"! Please please please?!?!?!?????** |

| | |
|---|---|
| **01/12/22**<br>Dose 3 · 21 day | Tinnitus louder & turned into a constant, continuous sound, not just "crickets". A shrill, intrusive screech in my head goes w/me everywhere! I must now have noise around me to cover it up. It's horrible! Will see Dr. about it after Omicron passes. |

## 9UG-12700-57167 14

| | |
|---|---|
| **07/22/21**<br>Dose 1 · day of shot | About 5 minutes after the shot, I felt faint and the nurse took my blood pressure and it was lower than normal for me. I felt ok 30 min later, but within an hour I started feeling naseau and a little lightheadedness. My BP is now higher than normal. |
| **07/24/21**<br>Dose 1 · days 1–6 | Around 10p last night i developed a fever. It got up to 102 while taking ibuprofen. Ibuprofen did not reduce fever- it finally broke this morning and im feeling better now. |
| **07/25/21**<br>Dose 1 · days 1–6 | The fever i mentioned before came on around 7p last night and only stayed elevated for about an hour and then it went away without medication. During that time i was chilled and feverish, but it was quickly over. |
| **08/13/21**<br>Dose 2 · days 1–6 | Doc has prescribed and anti naseau medicine that I should have later this afternoon — Extreme vertigo onset about 3 hours after shot (6:30p last night). Still cannot sit up or stand and have blurry vision |
| **08/14/21**<br>Dose 2 · days 1–6 | My doc prescribed meclizine to deal with the vertigo symptoms and its helping, but Im still having a weird effect with my distance vision. Up close or near me but far away its slightly blurry almost like Im looking through water. I am not driving. |
| **08/15/21**<br>Dose 2 · days 1–6 | **Went to an ER/Hospital and admitted for 6ish hours. Had labs, xray, and an ink CT scan done. Steriods administered to help me breath and d-dimer was elevated but no clots found in scans. — Went to ER last night because I was having difficulty breathing. They administered pain meds and sterioids to bring lung inflamation down. I can breath partially normally now. D-dimer test came back elevated so lung exrays and a ct scan were done** |
| **08/16/21**<br>Dose 2 · days 1–6 | May be going back to ER shortly — Still having diffuculty breathing unless on steroid. Eye doc sending me to neurologist for cranial nerve issue |
| **08/17/21**<br>Dose 2 · days 1–6 | Eye doctor is the person I saw for first check box. This was my second ER visit, but it was precautionary to allow a neurologist to confirm that there wasnt another reason other than imflamation causing my eye muscles to not work correctly. — Eye doc and pcp sent me back to ER for brain scan. Clear scan. All docs are now thinking I had an imflamatory allergic reaction that affected my lungs, crainial nerves, and causing the breathing, vision, joint, and brain issues. |
| **08/19/21**<br>Dose 2 · 7 day | Im feeling slightly less winded and my vision is getting a little better. We have me on a better dose of steroids now and its helping. |
| **08/26/21**<br>Dose 2 · 14 day | My vision is still not better. Lungs are getting better though. |

| | |
|---|---|
| **09/05/21**<br>Dose 2 · 21 day | My eyes are still having problems focusing and this past week, I started getting floaters in eyes and being light sensitive. The floaters have decreased now but the light sensitivity is the same. |
| **09/09/21**<br>Dose 2 · 28 day | Eyes are still not better. Right has gotten a little but left is worse. |
| **09/16/21**<br>Dose 2 · 35 day | Im getting more short spurts of vertigo followed by ear ringing. It comes and goes. Pcp is sending me to an ENT. — Normal doctors visit |
| **02/10/22**<br>Dose 2 · 6 month | I had been experiencing palpitations and moments where I feel like I forget how to breath from the time I got my second shot. The frequency has increased and Im now being seen by a cardiologist. — Cardiologist |

| **06/26/21**<br>Dose 1 · 3 month | MRI revealed torn rotator cuff, bursa fluid, and bone bruise. |

## U8R-11817-03058 2 tranches 15

| | |
|---|---|
| **04/16/21**<br>Dose 1 · day of shot | Ears feel stuffy, like sinus/allergy inflammation. |
| **04/17/21**<br>Dose 1 · days 1–6 | Mild blurry vision, moderate fullness/pressure at front of head, mild congestion in ears. |
| **04/18/21**<br>Dose 1 · days 1–6 | Paramedics called for severe numbness & tingling in arms and legs. The only other time I've had that happen was with an asthma exacerbation due to illness, twice. Both ended in respiratory distress. Today seemed to be a combination of nausea (short breaths trying not to throw up) and climbing fever. It resolved with acetaminophen and an anti-emetic. . — Severe tingling and numbness in arms and legs. Moderate feeling of fullness in head, pressure different from headache. |
| **04/19/21**<br>Dose 1 · days 1–6 | Mild intermittent tinnitus. I also think what I have is a gastrointestinal bug we somehow picked up. My daughter (2weeks from her 2nd covid dose today) also fell ill yesterday afternoon, not long after i did. 1.5 days out from my first vaccine. |
| **04/21/21**<br>Dose 1 · days 1–6 | At this point I know symptoms are not vaccine related. They started about a day after vax but my daughter and hubby (who were 2 weeks or from second dose) also have whatever this is. We went for a covid test yesterday and will have results. |
| **04/22/21**<br>Dose 1 · days 1–6 | I'm almost 100% sure we picked up a Norovirus just before vaccine. The only things I have that the non -vax don't are the weird tingling sensations in my skin/ muscles/scalp. |
| **04/23/21**<br>Dose 1 · 7 day | At this point my most concerning issue is the neuropathy (tingling/fuzziness in feet, legs (especially calves), hands, arms which is all much worse at night. And the burning sensation at the crown of my head accompanied by occasional bouts of pressure and headaches around my entire head (it's fuzzy and feels like nerve issues too). It started 36 hours after and has grown steadily worse. Not sure if it's getting any better or has leveled off a bit at this point. I read hundreds of similar accounts and have heard some directly. The diarrhea is likely connected to another issue, but not the nerve issues. |
| **04/30/21**<br>Dose 1 · 14 day | Outer ears started burning (crown has been since the beginning), increased feeling of fullness in ears and head. Headaches (throbbing temples, side/back) daily fluctuate. Fuzziness, tightness, and tingling in head and neck have also gone into back. |

| | |
|---|---|
| **05/07/21**<br>Dose 1 · 21 day | Since the first shot I've had evolving, migrating and fluctuating intensity, paresthesias, dysesthesias, headaches, fatigue, nausea, muscle and nerve tremors, brain fog, etc. I'm not alone. There are many of us and it's hard to find treatment. — Several specialists- allergy, cardiology, neurology, general practice. |
| **05/14/21**<br>Dose 1 · 28 day | **Intestinal motility is so slow I'm facing possible blockage conditions requiring ER treatment. Paresthesias, dyesthesias, tinnitus, headaches, temperature dysregulation, fatigue, etc persist. Please help those of us who have had adverse reactions. — Ongoing appointments for issues. Still have new issues presenting.** |
| **05/21/21**<br>Dose 1 · 35 day | Symptoms continue to fluctuate. Headache, burning, numbness, paresthesias, tinnitus, etc 5 weeks post vax still fluctuate in intensity on a daily basis. Something leaves and something new shows up. — Specialists, tests, labwork, etc. |
| **05/28/21**<br>Dose 1 · 42 day | Persisting paresthesias, dysesthesias, severe headaches, vascular issues, gi issues, and fatigue. — Specialists, bloodwork, labs, etc |
| **07/18/21**<br>Dose 1 · 3 month | All symptoms recorded in last check in continue + heaviness/tightness in legs, numbness in ankles, increased fatigue. |
| **10/15/21**<br>Dose 1 · 6 month | Reactions to medicines and foods, including: nausea, burning, tingling in mouth, headaches, increase in paresthesias, rise in heart rate, and just generally feeling unwell. I have this response to nearly every food or medicine. |
| **04/16/22**<br>Dose 1 · 12 month | Stomach completely stopped accepting solid food. I've been in liquid peptides exclusively for two weeks. I never had motility issues or food reactions prior to vaccine, they've been severe and nonstop ever since. The day of vax weighed 135, now 107. |

## M3D-24985-70597 2 tranches 12

| | |
|---|---|
| **04/17/21**<br>Dose 1 · day of shot | I got a little dizzy and short of breath shortly after getting the vaccine and stayed 40 minutes. They took me back to the medical staff comply chsirs and asked questions to make sure I wasnt feeling anything else. I have ventricular tachycardia, and Im on high-dose is a blood pressure medication to control the symptoms returned post ablation from surgery in 2013 |
| **04/21/21**<br>Dose 1 · days 1–6 | Chiropractor |
| **04/24/21**<br>Dose 1 · 7 day | Not today but I just realized I never reported immediate reactions while on site and in the observation area following my first injection. I have some heart problems, most specifically ventricular tachycardia. I take high doses of blood pressure medication to help control symptoms that returned post heart surgery in 2013. I got dizzy and a bit short of breath following my first vaccination. I munched on some dry cereal on the way up and had coffee that morning so not a super hearty breakfast. The fact that I was on medication that morning I should not have felt the shortness of breath that I did so it was 100% from the shot |
| **05/01/21**<br>Dose 1 · 14 day | SEVERE fatigue this last week. I literally had to take naps during my lunch hour and require far more sleep than usual. Last night after the work week i was out for 12 hours. Also had a temperature spike up and down a few times earlier in the week |
| **05/08/21**<br>Dose 2 · day of shot | Shortness of breath |
| **05/10/21**<br>Dose 2 · days 1–6 | Shortness of breath, dizzy |
| **05/12/21**<br>Dose 2 · days 1–6 | Definitely elevated PVCs and ventricular tachycardia acting up. Im having to take extra meds |
| **05/13/21**<br>Dose 2 · days 1–6 | **You really should call me about the super inflated rate of PBCs (heart palpitations) that Im feeling. I have ventricular tachycardia which I already had heart surgery for in 2013. I started medication to help control Return symptoms a couple years ago. I am having daily symptoms on a level I have never experienced in my entire life since the day I got the second shot Specifically my heart acting up out of the blue even when Im just sitting still and feeling the same shortness of breath that I did immediately after receiving the shot. This is almost always driven by activity levels for me so what Im feeling and the rate of it and the increase is highly highly abnormal** |
| **05/14/21**<br>Dose 2 · days 1–6 | **My heart is acting up far too much still. I keep waiting for someone to call for more information about this because its definitely an adverse an unforeseen side effect of taking the vaccination Is anyone going to call me?** |
| **05/16/21**<br>Dose 2 · 7 day | Elevated PVCs in my heart again today..... |
| **06/05/21**<br>Dose 2 · 28 day | Massive diarrhea and vomiting out of the blue that laid me up in bed all day. Also the fatigue had been horrible |
| **06/17/21**<br>Dose 2 · 35 day | My fatigue just keeps getting worse and worse since the first vaccine shot. Seriously my home is a mess and I never seem to have energy to clean anything after eating dinner .pre-existing heart issues s- ventricular tachycardia - acting up a lot more |

| **10/13/21**<br>Dose 3 · days 1–6 | Chest heaviness |

## WW7-19490-39751 3 tranches 15

| | |
|---|---|
| **03/19/21**<br>Dose 1 · 14 day | Gastroparesis flair; constant migraine (my migraine meds do not work); blurred vision in left eye, almost no.vision in right eye with black floater (my ophthalmologist cannot explain whyb sending me for more tests); extreme fatigue w/ flu-like symp — saw ophthalmologist; my vision was 20/20 with glasses; i cannot see out of my right eye / large black "floater"; right eye is very blurry |
| **03/25/21**<br>Dose 1 · 21 day | I can barely get out of bed. Blurry vision in left eye, almost no vision in right; ophthalmologist believes it's neurological in nature as eyes look healthy; neurologist ordered MRI. Severe migraines. Extreme pain in joints & muscles. Extreme fatigue — ophthalmologist twice to check on health of eyes; field of vision test ordered |
| **04/03/21**<br>Dose 2 · days 1–6 | vision is still severely blurred & black floater is still obstructing vision. this has been going on since a few days adter 1st dose & not subsided. none of my symptoms have. I've been sick for a month. |
| **04/06/21**<br>Dose 2 · days 1–6 | my vision has not returned to normal. 3rd visit with ophthalmologist tomorrow. |
| **04/07/21**<br>Dose 2 · days 1–6 | visit to my ophthalmologist (3rd since 1st jab for continued tests due to vision change &large floater — 3rd visit to ophthalmologist; no improvement in vision in either eye; right eye still painful & very blurted with dark floater. dr believes it's neurological. |
| **04/08/21**<br>Dose 2 · 7 day | vision has not gotten any better. |
| **04/15/21**<br>Dose 2 · 14 day | Every underlying health issue / comorbidity has been aggrivated. Cardiological, neurological, gynocological, autoimmune, gastroenterological, ophthalmological (still almost fully blind in one eye and completely blurred in the other), & psychological. — i have either seen or visited every one of my doctors, who have all been alarmed and sent me for tests. i have been put on new medications. I've never been this sick in my life. CT scan, nuclear stress test, ekg, ultrasound, transvaginal ultrasound, 6 eye exams...and bi weekly check-ins with my psychiatrist. my cardiologist & neurologist both said if COVID wasn't so bad in our hospitals, they would suggest admitting me to monitor my heart & do more neurological tests / observations. I've had these conditions for over 20 years and I've never even come close to this sick, and my drs have never been this concerned. |
| **04/22/21**<br>Dose 2 · 21 day | **You've never contacted me so this form is pointless. — you've never bothered to contact me. this form.is pointless.** |
| **04/29/21**<br>Dose 2 · 28 day | You never call to check in so why should I bother to fill this out? It's been almost 2 months of non-stop dr & hospital visits. — visits to multiple specialists. |
| **05/06/21**<br>Dose 2 · 35 day | Almost fully blind in right eye, constant migraines for almost 2 months, muscle spasms...Everything I've been saying for close to 2 months and you've never bothered to follow up on by contacting me. My drs believe my poor health is due to Moderna — field of vision test, shingles testtbiopsy on skin (waiting for results) other tests ordered: carotid dopler, orbital MRI, MRA. |
| **05/13/21**<br>Dose 2 · 42 day | Constant headaches, vision loss in one eye, almost blindness in another, rashes on body, waiting for results of shingles test from dr.It's amazing you have never called to check in after 2 monyhs of me telling you whats going on. — drs visits, |
| **07/01/21**<br>Dose 2 · 3 month | Extreme fatigue, vision lost, pains in chest & head, LUMPS IN BREASTS — orbital mri, mammography |
| **09/30/21**<br>Dose 2 · 6 month | Lump in my right breast. Still have vision loss; new lenses didn't fix it. Veins are constricted / cannot get an IV in / get bloodtests drs need — biopsy of breast lump (I live on SSDI. I can't afford the $375 bill!); spent thousands of dollars I don't have on new lenses for my glasses, still can't see well enough to drive; |
| **11/17/21**<br>Dose 3 · 3 month | Been to yet another neuro-opthamologist...my 3rd. They still can't tell me why I can't see but have seen this with several Moderna patients. The VDC doesn't get back to us. I can't even see my 4 month old niece's face. — see my above comment |
| **02/16/22**<br>Dose 3 · 6 month | High cholesterol. Probable type 2diabetes. Muscle spasms & back spasms. Insomnia. Antibody check.shows no antibodies and I can't get an answer if I can get a new shot or booeter. CDC not providing any info. It's like i had no vaccine at all. |

## L8A-18273-38516 3 tranches 12

| | |
|---|---|
| **04/30/21**<br>Dose 2 · days 1–6 | I twice went blind in my right eye for about 30 minutes |
| **05/01/21**<br>Dose 2 · days 1–6 | Blindness in right eye. |
| **05/02/21**<br>Dose 2 · days 1–6 | Dizzy, blurry vision, now needing a walker. Last night, both eyes started to lose vision. Before, the loss of vision was only in my right eye. |
| **05/03/21**<br>Dose 2 · days 1–6 | I still have blurry vision, but no longer going blind in eyes. |
| **05/04/21**<br>Dose 2 · days 1–6 | Blurred vision |
| **05/05/21**<br>Dose 2 · 7 day | My eyesight is still blurry. |
| **05/19/21**<br>Dose 2 · 21 day | The sight in my right eye, which is the eye I first went blind, is getting worse. I'm having a hard time focusing it. I never had this problem before my second vaccination. — In office eye exam with an ophthalmologist is booked, That was the advice of mt General Practitioner. |
| **05/26/21**<br>Dose 2 · 28 day | I'm blind more and more. |
| **06/02/21**<br>Dose 2 · 35 day | My eyesight changed immediately after my second vaccination and it's now so bad, I can't drive, read, ANYTHING I need to do with my eyes. Due to that, my balance is so bad, I had to borrow a walker. |
| **06/09/21**<br>Dose 2 · 42 day | **I CAN'T SEE OUT OF MY RIGHT EYE!!! Immediately after my second vaccination, it went and still is blurry. I have a brown floater. I've gone temporarily blind in both. I can't drive, read, barely see the TV. Saw an ophthalmologist. HELP ME!!!!!** |
| **10/27/21**<br>Dose 2 · 6 month | Fever - 102.7°, chills, nausea, hard to breathe, body aches, dizzy, blurred vision, diarrhea, exhaustion. I feel somewhat okay one day then can't get out of bed for days. All of this has been going on steadily since my second vaccination. |
| **04/28/22**<br>Dose 2 · 12 month | Daily chest pains, loss of balance. |

## WA8-27547-48379 3 tranches 11

| | |
|---|---|
| **06/03/21**<br>Dose 1 · 7 day | Nerve pain on the right side of my body! |
| **06/05/21**<br>Dose 1 · 14 day | Its not worse, but its worth noting. That as someone who rarely ever gets headaches, [name] had a small one since I got the first shot and it hasnt gone away. Its every day. Advil helps but then it comes back. Two weeks for a headache is |

| | |
|---|---|
| **06/13/21**<br>Dose 2 · days 1–6 | I have had my left lower eye lid twitching non stop for hours. It started earlier today and hasnt stopped. I truly never get eye twitches. This is definitely a reaction. I have read about facial paralysis. Worried customer over here. |
| **06/17/21**<br>Dose 2 · days 1–6 | The eye twitching has gotten better. The muscle fatigue is out of control. I could barely keep myself walking today. Ive never felt fatigue like this in my life. Im an athlete. My legs feel like they weigh a ton. Im also light headed. |
| **06/18/21**<br>Dose 2 · days 1–6 | **When will someone contact me!? I just went to physical therapy and had zero, yes 0, reflexes in my legs!! My legs feel heavy, they are weak, they hurt. Now they have no reflexes!!! This is vaccine related. When will someone care and contact me!?** |
| **06/19/21**<br>Dose 2 · 7 day | Will you ever reach out or care? People are saying how do you know this is vaccine related? Are you kidding me? This is because of the vaccine. I cant get out of bed with crippling exhaustion. Why does no one care!? This is so fucked up. |
| **07/03/21**<br>Dose 2 · 21 day | Tingling & burning in glutes & thighs that goes to me feet. Feet feel like pins and needles. Tingling mouth and lips. Theres def nerve pain or issues. Blood flow is messed up too causing bruising in toes when I sit. Mild headache hasnt gone awa — PCP, need follow up too!! |
| **07/11/21**<br>Dose 2 · 28 day | My headache has been consistent and at times worse. My eyesight without glasses now seems to be 10 times worse than prior to the shot. Kind of ridiculous. My brain fog makes it hard to focus. My tingling and burning in my legs is still present. — Primary Care |
| **07/17/21**<br>Dose 2 · 35 day | I have a damn appointment with a Neurologist this coming week. The vaccine completely destroyed me and I know its safe enough not safe. This has truly been disheartening and I do not trust this process one bit. You failed me. — Specialists |
| **07/26/21**<br>Dose 2 · 42 day | I was diagnosed with Guillian-Barre Syndrome from the Pfizer vaccine and no one here cares. This is bullshit. The vaccine has completely changed my life and not for the better, yet. Im holding out hope this mild case of GBS will get better. — Neurologist, Cardiologist, PCP |
| **12/12/21**<br>Dose 2 · 6 month | This is ridiculous. I've had a headache since the first shot, bad. 8 months ago. My vision changed, I experience vertigo, I forget things often, my eyes have trouble focusing. No one cares. Something changed neurologically when I got vaccinated. — Many specialists |

## ZPR-20979-08294 5 tranches 11

| | |
|---|---|
| **04/12/21**<br>Dose 2 · days 1–6 | Bumpy, itchy rash on my R arm and the elbow joint |
| **05/11/21**<br>Dose 2 · 35 day | I had one of the worst colds of my life! I am on day 6, I gave it to my mom also. Itchy itchy nose, nonstop running, sore throat, migraine, temp & sinus pain |
| **05/18/21**<br>Dose 2 · 42 day | Sinus infection & the worst cold/flu of my life-negative Covid test. |
| **07/06/21**<br>Dose 2 · 3 month | Swollen glands, constant runny nose, migraine, muscle aches. Stuff nose |
| **08/18/21**<br>Dose 3 · days 1–6 | Weird side pain under my left bottom rib? Ever since the 3rd vaccine-my mom does also. (b)(6)??? Idk if its inflammation from the shot or? |
| **08/20/21**<br>Dose 3 · 7 day | Some Eyelashes have gone white!?! |
| **08/27/21**<br>Dose 3 · 14 day | **Temp 100, runs, nausea, stomach pain, kidney pain, doc ordered a Covid test but they are not available!!!!! Then buy one! Wtf no CA is a mess and no testing! No wonder people dont go — Asshole he his nurse call me!!!** |
| **09/03/21**<br>Dose 3 · 21 day | I am still running slow grade temp since the 3rd dose. I run 99-100.2I do not have a uti-Irina and bloodworkbut I cannot get the temp down |
| **09/26/21**<br>Dose 3 · 42 day | I had c5-C7 ADR and had a bad inflammatory response. Also my endocrinologist asked what I did in March-my Addisons disease was going into hypothyroid also. She thinks it was the vaccine inflammatory response |
| **11/14/21**<br>Dose 3 · 3 month | Lupus diagnosis!!!!! My blood was good for three years on tests till now my third dose! I am concerned that the vax brought this on!!!! And I am not happy |
| **08/14/22**<br>Dose 3 · 12 month | Extreme Hypoglycmia |

## XD9-24477-18743 3 tranches 11

| | |
|---|---|
| **03/28/21**<br>Dose 1 · 7 day | Muscle twitching in injection area |
| **03/30/21**<br>Dose 1 · 14 day | Sore arm from injection as well the muscle is twitching. I feel very still today, more stiff then I usually am. |
| **04/06/21**<br>Dose 2 · day of shot | Muscle spasms in shot location |
| **04/07/21**<br>Dose 2 · days 1–6 | **My muscles in shot location is twitching! Please help make it stop** |
| **04/08/21**<br>Dose 2 · days 1–6 | Muscle twitching in shot location |
| **04/11/21**<br>Dose 2 · days 1–6 | Arm still hurts and is having muscle twitching in injection area |
| **04/22/21**<br>Dose 2 · 14 day | Muscle spasms injection location. Weak muscles in legs. My question is, nothing says, per vaccine related symptoms. I have health issues so don't know how to determine. But definitely vaccine shot muscle spasms |
| **05/04/21**<br>Dose 2 · 28 day | Muscle weakness |
| **05/11/21**<br>Dose 2 · 35 day | Weak muscle pain in legs/thighs |
| **05/18/21**<br>Dose 2 · 42 day | Headaches, brain fog. Legs muscles are week. Leg cramps |
| **04/09/22**<br>Dose 2 · 12 month | I had every symptoms. Low oxygen, went to hospital — Would have been admitted but they had no beds. Was sent home with oxygen |

## Y22-93476-75615 3 tranches 15

| | |
|---|---|
| **03/06/21**<br>Dose 1 · days 1–6 | My rightside ear very uncomfortable for 4 days. I felt like something inside and is not clear |
| **03/07/21**<br>Dose 1 · days 1–6 | ear not comfortable |
| **03/15/21**<br>Dose 1 · 14 day | my right ear very uncomfortable. the sounds still their.I felt heavy and like something inside. And my bidy still tired and my muscles sore specially down ti my legs. sometimes i fell nervous. — walk in with my family doctors |
| **03/29/21**<br>Dose 1 · 28 day | My ears still making noise and some of neck hurts. Most bothers me is my ears making noise none stop. |
| **03/30/21**<br>Dose 2 · days 1–6 | My two ears making noise and pain |
| **04/01/21**<br>Dose 2 · days 1–6 | Both ears hurts |

## G5K-17998-05329 2 tranches 10

| | |
|---|---|
| **02/02/21**<br>Dose 1 · days 1–6 | I went to Kaiser emergency last night as it was the only thing open. After waiting for hours the place was jammed and I couldnt be seen. And I went home. I had to telephone conversation With my doctor this afternoon whos trying to figure out why Im saying these colors that look like fungus on everything — Four hours after I got the vaccine I experienced what I can only describe as hallucinations. I would look at my wall and see bright turquoise balls all over it. Then the color would change to a bright pink. After I woke up this morning the blue and pink color is gone and now its a light green. Its not floaters in my eyes. It actually looks like the walls are covered in a fungus.. |
| **02/03/21**<br>Dose 1 · days 1–6 | The Hallucinations have changed. Instead of seeing bright blue and pink dots all over the walls, its changed to a green color. Theyre not docs now it just looks like scratches everywhere. |
| **02/04/21**<br>Dose 1 · days 1–6 | Im waiting for an appointment with Kaiser — I still have the hallucinations. I am now seeing a lighter blue when I look at a plain wall would like scratches all over it. Im trying to make an appointment with an ophthalmologist. |
| **02/05/21**<br>Dose 1 · days 1–6 | **I am waiting for my ophthalmologist from Kaiser to call me — I am still seeing the hallucinations.** |
| **02/06/21**<br>Dose 1 · days 1–6 | Waiting for an appointment with the ophthalmologist — I am still seeing hallucinations. Im seeing an aqua blue colored lines all over my walls. |
| **02/07/21**<br>Dose 1 · days 1–6 | Trying to make an appointment with my ophthalmologist. — I am still seeing hallucinations. I see your friend aqua blue color like scratches all over the walls. |
| **02/08/21**<br>Dose 1 · 7 day | I am still seeing hallucinations, an aqua blue color or scratches when I look at my walls. I have an appointment with the ophthalmologist tomorrow |
| **02/22/21**<br>Dose 1 · 21 day | I am still seeing blue colored lines on a wall. I am also hearing a piano playing, when theres no music around. |
| **03/01/21**<br>Dose 1 · 28 day | I am still hallucinating, Im seeing these blue lines all over everything. I am also hallucinating and hearing piano music. This has been very disturbed and upset. I am not getting your second shot. |
| **03/08/21**<br>Dose 1 · 35 day | My hallucinations are getting worse. I am seeing everything in blue and hearing the piano music daily. |

## YPL-10771-38242 3 tranches 7

| | |
|---|---|
| **02/08/21** Dose 1 · days 1–6 | **Daughter was home to help me through the SVT episode — Yes, I had an SVT episode last night where my heart rate was racing at about 180 beats per minute. Also every morning since the vaccine I wake up extremely dry and thirsty. Im not sure anything is related.** |
| **02/09/21** Dose 1 · days 1–6 | Just not feeling great. Extremely dehydrated. Svt episode was tiring. |
| **02/10/21** Dose 1 · days 1–6 | I have experienced dehydration and a svt heart episode on Sunday night and Im not certain if related. I needed to drink constantly yesterday. I am starting to feel better today. |
| **02/12/21** Dose 1 · 7 day | No other symptoms |
| **02/26/21** Dose 1 · 21 day | Yesterday I had chills and was achey... did not feel well. |
| **03/07/21** Dose 2 · days 1–6 | Not today |
| **03/25/21** Dose 2 · 21 day | Palpitations |

## Z7Q-18447-01328 3 tranches 8

| | |
|---|---|
| **02/13/21** Dose 1 · days 1–6 | I am a Type 1 diabetic on an insulin pump and for the last 2 days my blood sugar levels have bee very hard and not responding to increased insulin as usual which makes just feel like sleeping when blood sugar levels are high. I have to push myself to perform my daily activities |
| **02/14/21** Dose 1 · days 1–6 | **Yesterday I reported that as a Type 1 brittle diabetic I had experienced high blood sugars unable to be lowered except with unusual high doses of insulin leading to fatigue and sleepiness. Today that has disappeared and U am back to my normal blood sugar and insulin routine. This is a normal pattern for me when Me body is fighting an infection. Im this is a normal reaction for me due to the vaccine. Please contact me if you have any questions** |
| **03/12/21** Dose 2 · days 1–6 | Blood glucose levels ran higher than normal but where easier to bring down than with first shot |
| **03/13/21** Dose 2 · days 1–6 | Today my blood glucose levels have been higher than normal with some difficulty reducing them with insulin. Feeling slight headache along with brain fog difficult to figure out I should do next and unable to concentrate enough to even read. Awake for about 2hours and just waking up after 4 hour nap |
| **03/24/21** Dose 2 · 14 day | Have continued to experience unusually higher than normal blood sugar readings with low energy levels |
| **03/30/21** Dose 2 · 21 day | Continue with unusually increased blood sugar levels. Have had to increase my insulin pump basal rate by about 20% and insulin to cover food by about 35% |
| **04/06/21** Dose 2 · 28 day | My blood glucose levels have become unstable And Ive experienced 3 episodes of hypoglycemia in early mornings even though decreasing my previous level of basal insulin via pump by almost half. However during the day hours have had to double basal |
| **04/13/21** Dose 2 · 35 day | Need to correct previous weeks reports about problems with maintaining blood glucose levels. They were the result of an insulin pump error rather than related to the vaccine. All is OK now |

## ZKJ-27339-10538 5 tranches 7

| | |
|---|---|
| **01/21/21** Dose 1 · days 1–6 | Dizziness |
| **01/29/21** Dose 1 · 14 day | Headache, but Im a migraine sufferer |
| **02/19/21** Dose 2 · 14 day | **Headache upon waking several days. I am a migraine sufferer and took a Fioricet, which seems to help me get through the day. I wake up with a headache daily now.** |
| **05/07/21** Dose 2 · 3 month | Right inner elbow pain/swelling. Right tibia swelling and small pain in right calf, which been there since last month, didnt really bother with it as a pain. |
| **08/08/21** Dose 2 · 6 month | Left side pain today and abdominal pain/diarrhea today. Right elbow pain for the last 3 months. |
| **10/02/21** Dose 3 · 42 day | A couple of blisters to me big toe and lateral tarsal. Also a rash to upper foot. |
| **03/11/22** Dose 4 · 21 day | Small bump under my right armpit, which seems better with warm compression. Don't feel it as much today. Started on Sunday. |

## 247-29841-49015 3 tranches 5

| | |
|---|---|

| **08/16/21** Dose 1 · 14 day | Rash on flank and torso is getting worse |
| **08/23/21** Dose 1 · 21 day | **The rash has spread, got worse, turned dark red & purple with sores & patches. It hurst to exist & I cant sleep because of the pain and itching. I need help. Please let me know what to do to get this to stop. Cant get second vaccine till clea — Doctor office** |

| | |
|---|---|
| **08/30/21**<br>Dose 1 · 28 day | Rash is spreading, getting worse, has open sores and now has growths in it |
| **09/06/21**<br>Dose 1 · 35 day | The rash on my stomach & leg is spreading. Its in a constant cycle of calming down and then flaring up. — Dermotologist visit |
| **09/13/21**<br>Dose 1 · 42 day | My skin is now red, purple, peeling, with open sores all over, has gotten much worse in intensity & went from a quarter sized area to covering part of my legs, stomach & hips & is swollen significantly. Its extremely painful and itches — 2 in person visits to Dermotologist & numerous calls with doctor. Trying to stay out of ER/hospital because they are beyond capacity with covid patients & turning patients away |

## 3AL-17532-53791 2 tranches 6

| | |
|---|---|
| **04/30/21**<br>Dose 2 · 28 day | Extreme fatigue and brain fog, chills for weeks, hasn't stopped since the day of the 2nd moderna vaccine, can't get anything done, can't return to massage like I'd hoped. When is this going to end? — Working with a Chinese medicine doc, since regular doc said there's nothing he can do |
| **05/07/21**<br>Dose 2 · 35 day | Not new or worse. Slightly more energy at times, but mostly extreme fatigue and brain fog, general malaise. Yesterday was the first day I felt ok to drive. |
| **05/14/21**<br>Dose 2 · 42 day | Symptoms have gotten worse this week. Not as bad as the 1st week after the vaccine, almost. Extreme fatigue, brain fog, fevers. It's been 6 wks now since shot 2 which caused these symptoms. I was healthy. Can't reopen my business. Can barely shower. |
| **07/02/21**<br>Dose 2 · 3 month | I had 2 wks of more energy around the 1st of June. Was able to work somewhat. Back in bed since the 14th, when I also got my period. Extreme fatigue, brain fog, some fevers, loss of appetite, nausea, dizziness, more bleeding/cramping during period. — Acupuncturist, Biologist/herbalist |
| **10/01/21**<br>Dose 2 · 6 month | **2nd shot of Moderna on 4/2, too ill to do anything since. Too many symptoms to list, mainly nervous system. Either too exhausted to move or revved up so high, feels like I'm going to seize. Nightmare rollercoaster. Was healthy before. I need help! — Acupuncture, herbalist, anything to be doing something since western docs just keep knocking me around and canceling my appts. This has been a complete nightmare! The vaccine was supposed to help me get my life back after covid. Ruined.** |
| **04/02/22**<br>Dose 2 · 12 month | I am finally receiving a diagnosis for neuropathy, and it is reflected on my medical chart as vaccine-induced by the neurologist it took me almost a year to find. I still have many of the same debilitating neurological symptoms from Moderna shot. — Since regular doctors are not being informed about vaccine injuries, I have been seeing various naturopathic practitioners, as well. |

| **04/26/21** Dose 1 · 35 day | Chest Pain. Leg Pain. Throbbing Headaches. |

## HMV-13419-12929 2 tranches 7

| | |
|---|---|
| **03/23/21** Dose 1 · days 1–6 | Seeing my doctor in person tomorrow. — I had a WEIRD side effect. I've had a HUGE thyroid goiter on the front of my neck for over 8 years, was due for a scan the end of the month to see about removing it, and CREEPILY it had disappeared the morning after my first vaccine. I had a bunch of wrinkles where it had been ..it's very weird and concerning. I see my doctor tomorrow to discuss this as it is still MIA four days later. |
| **03/28/21** Dose 1 · 7 day | I still have the issue of my thyroid goiter being gone after eight years. I have a scan on my neck this week and blood work tomorrow. I feel like my body has been ran over by a truck and my head will not stop hurting no matter what I do. I feel terrible |
| **04/03/21** Dose 1 · 14 day | The headaches last all day, everyday and nothing will take them away. I'm considering NOT getting my second shot on April 30th |
| **04/09/21** Dose 1 · 21 day | Same arm that was vaccinated is numb and hurts..worsening headaches and since my vaccine I have been diagnosed with Graves disease.. something I didn't have before..heart palpitations.. exhausted-feel terrible..they told me to refrain from 2nd shot |
| **04/19/21** Dose 1 · 28 day | **The fact no one is reading these comments is absurd-Shows how much the CDC cares-Ive said I had weird reactions to the 1st that concern not only me but my team of doctors & they have advised against the 2nd dose-Someone should have followed up w/me** |
| **06/18/21** Dose 1 · 3 month | **I'll say it for the 1000000 time-Ive felt like my body went through a meat grinder since my 1st vaccine & am seeing multiple specialists trying to find out what to do-So NO, I havent had my 2nd shot per ALL of the doctors-You can CALL ME if you care** |
| **09/17/21** Dose 1 · 6 month | I didn't get my second ..and no one will respond to me about my side effects from the first so I'm never getting the second. So unless you want to contact me about my side effects, don't contact me again at all. |

| | |
|---|---|
| **04/05/21**<br>Dose 1 · days 1–6 | A few hours after getting my 1st Pfizer shot we went to dinner. When I got up from table I noticed my right food very tender like I could hardly walk on it. It was still (b) (6) morning. By evening, no pain so not sure why but think related |
| **04/25/21**<br>Dose 2 · days 1–6 | It is next day after I got shot and happens to be on a Sunday. I reported this to the on-call and waiting for a call back from doctor on call — Major hip pain radiating up to my pelvis. I can hardly walk now and Im very concerned |
| **04/26/21**<br>Dose 2 · days 1–6 | **I am unable to walk due to the Pfizer vaccination. Sharp pain on my right pelvis down to my hips and thighs. Please HELP! I have reported this to my doctor who is prescribing some pain meds.** |
| **04/29/21**<br>Dose 2 · days 1–6 | Doctors visit pain in groin since 2nd Pfizer shot |
| **05/10/21**<br>Dose 2 · 14 day | Ever since the 2nd Pfizer shot, Ivw had severe pain n my groin on right side. Feels like sharp stabbing pain and can hardly walk without pain. Why am I having to keep filing this out and no one has contacted me? — Doctor visit to test urine. Next week I will have to go back and spend another $75 to get bloodwork and an exam. I would like for Pfizer to pay my medical bill for whatever the bills come to due to their shot when I was fine. Ed |

| 7EJ-80298-92811 2 tranches | 7 |
|---|---|
| **04/06/21** Dose 1 · 14 day | **I developed shingles and it spread all around my neck and then yesterday I was diagnosed with Bells Palsy!I need help. This sucks and is the worst decision Ive ever made in my life. I cant imagine why this is being promoted by our leaders. — My DOCTOR, eye doctor and ear nose and throat doctor** |
| **04/13/21** Dose 1 · 21 day | I have Bells Palsy. I can not work, as I can't close my eye. No one wants to admit this is vaccine related. I had Shingles, now Bells Palsy. This is the worst mistake I've ever made in my life... I should have never gotten vaccinated. — Primary Care Doctor, EAR Nose and Throat Doctor, Eye Doctor |
| **04/20/21** Dose 1 · 28 day | **Bells Palsy and no assistance from this sitelve even called in and no one returns calls. This is a waste of time. I am miserable and cant blink my eye. This vaccine has cause me a lot of issues and I wish someone would help me.** |
| **04/27/21** Dose 1 · 35 day | Why does it matter. Ive called, left messages and filled this form out for weeks. Bells Palsy and shingles from this vaccine |
| **05/04/21** Dose 1 · 42 day | Sensitive to light. Pain on face from the Bells Palsy. Only recently I can close my eye. What I cant figure out is why I fill this out anyways? I screwed up and took the vaccine and made an enormous error |
| **06/23/21** Dose 1 · 3 month | Bells Palsy is still here in full force. I should have never done this vaccine stuff. My mouth is hanging on one side, and I have no taste on 1/2 of my mouth |
| **09/24/21** Dose 1 · 6 month | the right eye (side where bells palsy was) tears more and in the morning I wake up with a crusty eye. Seems vision has deteriorated, but I have not been to an eye doctor |

| 36E-24720-09248 2 tranches | 5 |
|---|---|
| **04/07/21** Dose 2 · days 1–6 | No appetite. Fever much higher last nights, at 102°F BUT; A very strange one that happened the 1st time as well! I have 2 Spinal cord stimulators, some wires are outside my spine, & the normal sack your body builds around any foreign object in ones body has swelled a lot around all of my wires under the surface of my skin!! Very odd! |
| **04/20/21** Dose 2 · 14 day | I am always so tired & weak, I still have a slight fever, headaches are incapacitating & never stop. My lower legs are as hard as rocks, I have been getting way more nauseous than usual. I am disabled and have many other health issues as well. |
| **04/29/21** Dose 2 · 21 day | Headaches still make me bed ridden, my lower legs still hard as rocks, still getting high fevers on & off, do not feel good at all & now wondering if the Vaccine even worked on me at all, as many do not! — Been calling my GP since my 2 bd Vaccine leaving so many messages & not once have TGEY called back! I now wonder as one Dr. told me I should get checked to see if the VACCINE worked on me, as I had a really bad infection & my body can not find ght of one thing at a time, never mind 2, so they said to go to a hematologist & get tested! |
| **05/16/21** Dose 2 · 35 day | I can no longer heal at all any longer!! |
| **05/19/21** Dose 2 · 42 day | **I still have these incapacitating headaches, which started the late afternoon of my 1st Vaccine and have not stopped at all! My lower legs are still like rocks, which started after the 2nd Vaccine, & my muscles, tendons, & ligaments seem to just be t — I had been calling my GP since my 1st Caccine and especially after my 2nd, always getting a voicemail I left more messages for an emergency appointment than I can count! I was very sick fir 2weeks and several days afyer my 2nd vaccine and fir over a week fir the 1st vaccine! I never stopped leaving messages with my Primary Care Physician!! It took them at least a month before I received a call back and a date for an appointment, which I told them I had to get a tooth pulled that day. They gave me no other dates and I keep calling again as they said that was the only date she had but it was well OAST a moth after my 2nd Vaccine, and I was so very annoyed at her and that iffice as well as GER GEAD nurse, I am going to turn them in as incompetent, as they never get back to you when you call for an appointments, & or in this case it took them well over a month and 3 weeks to call me back. When I am there they get everything wrong and I am turning them in for their incompetence as the PA & her head nurse!** |

|---|---|
| **01/22/21**<br>Dose 2 · days 1–6 | **Symptoms discussed via patient portal message center. I tried to find an opthomologist today but with it being a Friday and last minute I didn't have any success. — I have Grave's disease. Total thyroidectomy in 2002 and have not had an issue with my Graves disease eye symptoms since 2002. I receive my vaccine at 1040 and at 2100 I started have bilateral eye pressure, moderate amount of pain and photosensitivity. I have not had a single issue with my eyes in nearly 19 years. I did mention this with my endocrinologist today via email. He said that it would not surprise him if an occasional patient had issues regarding autoimmune disorders and the vaccine. I am not upset, as I am sure it will all be ok in a few days but I just want to make you guys aware of the situation. I am currently working as nurse in a level 1 trauma center emergency department, so my benefits of the vaccine definitely outweigh. my risks. Please feel free to call me to discuss. I am trying to find an opthomologist to follow up with just in case the symptoms do not resolve on their own. I am thankful for the the vaccine.** |

## ACC-17538-01892 — 3 tranches — 23

| | |
|---|---|
| **01/27/21**<br>Dose 1 · day of shot | muscle ache right at the site and nothing that I don't typically get from lifting wts |
| **01/28/21**<br>Dose 1 · days 1–6 | The area around the injection is quite warm, "hardish," and somewhat swollen. It's pretty sore to raise that arm. I also seem to having some mild constipation, and I'm exceedingly regular. |
| **01/29/21**<br>Dose 1 · days 1–6 | Very milks constipation |
| **01/30/21**<br>Dose 1 · days 1–6 | the area around injection site is still somewhat "hard" compared to rest of my flesh |
| **01/31/21**<br>Dose 1 · days 1–6 | area @ injection site is still "hard" feeling compared to rest of my arms, and still having mild constipation |
| **02/01/21**<br>Dose 1 · days 1–6 | Still not completely back to normal in the BM department - still not as many BMS/dy as normal for me |
| **02/02/21**<br>Dose 1 · days 1–6 | BM's still not back to normal. I'm a little on the constipated side for me. |
| **02/03/21**<br>Dose 1 · 7 day | Just wanted to say FINALLY all BMs back to normal, and tissue density at injection site completely back to normal. Yaay! T/u for keeping such good tabs on me. |
| **02/10/21**<br>Dose 1 · 14 day | Although everything else I've reported has all cleared up, I noticed that I get tired sooner than I usually would. I can typically work outside all day and only nominally tired when I come in, but lately it's half-day for me and I feel beat. |
| **02/25/21**<br>Dose 2 · days 1–6 | Most severe shaking I've ever get experienced |
| **02/26/21**<br>Dose 2 · days 1–6 | what I call a "flash fever" where I feel like I have a low fever and feel uncomfortably hot for 5-10 minutes then that disappears then comes back |
| **02/27/21**<br>Dose 2 · days 1–6 | just a wee bit of tenderness & swelling injection site & notice I am more tired than usual |
| **03/10/21**<br>Dose 2 · 14 day | Feel great except for sudden-onset tiredness. All of a sudden I get SO tired I have to lay down for a nap. That's the unable part. When wake up I'm fine. Always sleep many hours (9) each nite but lately have wanted at least a half hour more. |
| **05/26/21**<br>Dose 2 · 3 month | Starting @ 4/24/21, I began being extremely sore in various parts of my body. Pain was not the same - changed daily. Showed up in various places. With this I was pretty tired, but thought it likely b/c this caused me to not sleep well. Ongoing |
| **08/25/21**<br>Dose 2 · 6 month | I had breakthrough covid. the symptoms were so unusual my doctor did not recognize it for almost 4 wks, until the person who undoubtedly gave it to me texted a friend and simultaneously my doctor and I both located newly published research. — My Dr ordered complete bloodwork. |
| **04/25/22**<br>Dose 4 · days 1–6 | Why did you ask only about TODAY? I was sicker than a dog for 2 days after the injection. |
| **04/26/22**<br>Dose 4 · days 1–6 | I have been having a lot of depression since getting boosted on Fri. Had distinct impression it was part of getting the booster. Strange. It is waning in intensity now. |
| **04/27/22**<br>Dose 4 · days 1–6 | Odd feeling of being down. |
| **04/28/22**<br>Dose 4 · days 1–6 | Still having feeling of being depressed. Is more pronounced off & on thru out the day. |
| **04/29/22**<br>Dose 4 · 7 day | Feeling of being "down. |
| **05/20/22**<br>Dose 4 · 28 day | Have had some very tired and joints hurting days. This is likely from having done hike on rocky beach and strenuous yard work, but overall have been feeling tired. I did an at-home C19 test - negative. |
| **05/27/22**<br>Dose 4 · 35 day | I'm more tired than usual. This seems to be occurring on a sliding scale for last three weeks, being a little more tired every day. I've taken two at-home antigen tests since my 2nd booster - both negative. |
| **10/21/22**<br>Dose 4 · 6 month | **Nausea, puke seats, dizziness, extreme ache in arm and back, extreme tiredness. If you people are going to contact me, you'll need to use EMAIL. Hearing impaired and can only make OUTGOING calls with my special app. (b)(6).** |

## 2AQ-25454-82154 — 3 tranches — 22

| | |
|---|---|
| **03/24/21**<br>Dose 1 · day of shot | Flushing one or twice |
| **03/25/21**<br>Dose 1 · days 1–6 | Facial flushing, lips bigger. Irritated fibromyalgia? Nerves? |
| **03/26/21**<br>Dose 1 · days 1–6 | Collarbone soreness. Lymph? Doing lymph massage. Very sore and uncomfortable. Tender when touched. |
| **03/27/21**<br>Dose 1 · days 1–6 | Flexeril helped with my collarbone sensitivity, but it's still lightly there. Feeling good and no injection site pain |
| **03/29/21**<br>Dose 1 · days 1–6 | Flare on my left side today which it's not usual. Muscle pain and tightness. |
| **04/02/21**<br>Dose 1 · 7 day | Had a good day after a very bad migraine, pain day yesterday. Back to my "normal" up and downs. |
| **04/14/21**<br>Dose 2 · day of shot | Annoyed that you cannot go back and edit after submitting during the day or weeks after the shot. Had some eye issues with dryness and day 11 some blood pooling around the right eye and some period issues that was like a blood bath and I'm not sure if it's fibroids, perimenopause, or the vaccine. Couldn't report that at the time because there was no way to do that I was apparently entered and done That's not okay. Six hours after shot number two my arm is sore and feels like it's been murdered some fatigue. |
| **04/15/21**<br>Dose 2 · days 1–6 | Armpit lymph node is swollen! Feels like a golf ball and is painful and swollen!! Arm sore at injection site when touched, but armpit is so painful!! |
| **04/16/21**<br>Dose 2 · days 1–6 | Nurse advice triage by phone to make sure burning in my armpit with a swollen lymph node is normal before going into the weekend when they are closed. — Swelling of my lymph node in my armpit is uncomfortable, burning, slightly pink and beyond annoying. Trying to do lots to move my lymphatic system. Very painful. |
| **04/17/21**<br>Dose 2 · days 1–6 | Armpit swelling not as much, but still there. Valium helped with stabbing, burning pain before bed last night, so better day today. Down by about half, maybe. |
| **04/19/21**<br>Dose 2 · days 1–6 | Considering I didn't check in yesterday since you emailed at 11:30 p.m. and I tried to respond at 6:41 a.m yesterday was a little bit sore in the armpit since I wore a bra. Today I can feel the swollen lymph in my armpit still and no it's there. |
| **04/20/21**<br>Dose 2 · days 1–6 | Massage, as planned to get me back to normal — Had a planned massage today. Says the collarbone lymph want detectable, but the armpit was noticable. Hopefully will go down and back to normal after massage. Arm had some aches after being worked on. |
| **04/21/21**<br>Dose 2 · 7 day | Left shoulder blade hurts. |

| | |
|---|---|
| **10/16/21**<br>Dose 3 · day of shot | Felt inflammation on neck, shoulders and teeth. Dizzy, slight nausea went away with ibuprofen. Needed a nap, tired. |
| **10/17/21**<br>Dose 3 · days 1–6 | Lymphedema in armpit with shooting pains. Checked temp and I'm elevated for me, so fever and pains with swelling. Pissed at covidiots who keep this going! (And variants) |
| **10/18/21**<br>Dose 3 · days 1–6 | HUGE lymph node swelling in my armpit. Painful, swelling, bruise, hot, annoying swelling in my armpit/breast area |
| **10/19/21**<br>Dose 3 · days 1–6 | Still sharp pains with a swollen lymph node in my armpit are making today very uncomfortable. It usually starts in the morning and gets a little bit better as the day goes on but I'd like to know where the bruise came from on my breast and I'd like t |
| **10/21/21**<br>Dose 3 · days 1–6 | Massage for lymphatic system and pt for neck being off — Annoyed that you can't login to do the day prior or later at night. Yesterday was painful and inflammation of the body with headache. Today, got massage where she specifically worked on that lymph node and side of body to get inflammation down |
| **10/22/21**<br>Dose 3 · days 1–6 | **Did you call me and then ask for my number on vsafe??? Send legit, yet sketchy. Yes, i did sell medical treatment yesterday in the form of a massage, just as i said in the text. I have fibromyalgia and this is hard for me to get through with inflamma** |
| **10/23/21**<br>Dose 3 · 7 day | Armpit lymph swelled up again last night. Uncomfortable. |
| **11/20/21**<br>Dose 3 · 35 day | Elevated temp and sinus pain with drippy nose — Drive through Covid test because i had appointments and didn't want to in fact, anyone if I was positive. Still don't know what is going on. No temp, but still drippy |
| **01/15/22**<br>Dose 3 · 3 month | Since it's now come out that menstrual cycles can be affected by the vaccine, mine definitely was around the time of the vaccine. 20, 19 and an unheard of 16-day cycle was had in 2021 with heaviness and a visit to my GYN to make sure I was okay. — Gyn visit |

| | |
|---|---|
| **04/15/21**<br>Dose 1 · days 1–6 | Day 1: Prickly body itch Day 2: swollen glands, sore throat, tired, Day 3: no itch, new= body aches, still sore throat, and neck glands still swollen |
| **04/16/21**<br>Dose 1 · days 1–6 | Sore throat which Ive had since day 2, swollen gland on neck but they are going down. |
| **04/17/21**<br>Dose 1 · days 1–6 | Still have a swollen glands in neck |
| **04/18/21**<br>Dose 1 · days 1–6 | No symptoms all today. Glands are pretty much normal. |
| **04/19/21**<br>Dose 1 · days 1–6 | Glands still a bit swollen. No other symptoms. |
| **04/20/21**<br>Dose 1 · 7 day | Today I am free of all symptoms. My glands are no longer swollen. |
| **05/04/21**<br>Dose 2 · day of shot | I just got the vaccine at 1:45pm. I dont expect symptoms yet and dont have any yet. |
| **05/05/21**<br>Dose 2 · days 1–6 | Didnt sleep due to aches and pains. Increased post nasal drip. Have t eaten or drank water due to nausea. |
| **05/06/21**<br>Dose 2 · days 1–6 | Severe headache possible due to high mucus production and sinus pain. Post nasal drip made me nauseous so I didnt eat or drink and vomited mucus and stomach acid. Eyes were so painful I couldnt sleep Btw my normal temp is 97.6 so my fever was like an ever age person with a 101.3 temp. |
| **05/09/21**<br>Dose 2 · days 1–6 | Neck hurt. One thing I forgot to mention was that until today most foods still seemed unappetizing - thats not typical. Today I feel better. I think the excess post baskets drip into my stomach caused nausea. |
| **05/18/21**<br>Dose 2 · 14 day | Very tired, low energy. |
| **05/25/21**<br>Dose 2 · 21 day | Its more that I didnt report it. I did not lose smell or taste but a lot of foods I normally enjoyed I strongly did not want to eat. And, my energy level isnt what it was. I dont the endurance for my normal brisk one hour walk or bike r |
| **11/02/21**<br>Dose 2 · 6 month | **Run down tired nauseous leg cramps upset stomach — I called today and await a call back** |

## V94-24890-45620 2 tranches 13

| | |
|---|---|
| **05/22/21**<br>Dose 1 · days 1–6 | I do have pre-existing conditions. I am doing my best to separate the symptoms that came on I woke up today from my normal symptoms from my daily chronic conditions. I have RA, Fibromyalgia, Sjogren's syndrome, Migraines, Endometriosis, and Pernicious Anemia. I do believe I'm experiencing more muscle aches and joint pain and usual. I'm also more fatigued and I'm running a mild fever. I generally run around 97.8*F on a normal day if that helps. I am having some gastrointestinal upset. I love with constant nausea, so I'm unsure if anything is different on that front, but the diarrhea is not normal. I currently have an unusual headache. It's like a pressure at the base of my skull that occasionally branches out into pain. Normally my headaches are in different locations, so this stands out. |

| | |
|---|---|
| **05/23/21**<br>Dose 1 · days 1–6 | My lower legs and feet swelled up for no apparent reason last night. I hadn't been standing or sitting overly much so there was no reason for them to of up twice their normal size. I have poor circulation so I happened to be wearing compression socks when it happened. I dread to think how bad it might have got it I hadn't been. It was painful and did not go down with elevation like I expected. I went to bed with them still swollen. They are still puffy, but not to the size they were last night. Still quite sore and stiff. I'm much more stiff overall than normal as well. |
| **05/24/21**<br>Dose 1 · days 1–6 | Legs and feet are still puffy. Keeping them elevated and compression socks on. So far the first day they swelled was the worst. They do hurt to walk on. I'm disabled so I don't work, but if I did this would definitely be a side effect that would prevent me from working. It's quite painful. The more I walk the worse the swelling gets, so I'm not even able to move as much as I normally am able. I just hope that the swelling subsides soon. I do think it's getting better slowly. |
| **05/25/21**<br>Dose 1 · days 1–6 | Legs and feet still puffy. They've gone down for a bit, but are still sore. Definitely getting better. |
| **05/26/21**<br>Dose 1 · days 1–6 | I feel like I'm progressively getting sicker. Almost flu-like symptoms except the gastrointestinal side has stopped. Usually the flu hits me with a lot of vomiting and diarrhea. I am on medications that make taking over the counter cold medicines risky for my liver and kidneys, so I'm not able to seek relief that way. My sinuses are now involved. Major sinus pressure and an accompanying sinus headache that keeps edging over into migraine territory. I'm treating myself with Esgic to control the migraine. It doesn't do anything for the sinus pressure, but it keeps the migraine from fully taking over. I haven't gone out and been in contact with other people. My husband and I are both disabled, so we've been in self isolation. Unless I contracted something at the drive through vaccination site, I'm pretty sure this is being caused by the vaccine. |
| **05/27/21**<br>Dose 1 · days 1–6 | Pretty much the same as yesterday |
| **05/30/21**<br>Dose 1 · 7 day | My side effects haven't really improved much since my last check in. |
| **07/02/21**<br>Dose 2 · days 1–6 | Pretty much the same symptoms as the first shot |
| **07/03/21**<br>Dose 2 · days 1–6 | I forgot to report that before I got the second dose I saw my PCP due to the reactions I had to the first dose. Due to the fact that I tested negative for antibodies we decided to move forward with the second dose. Still feel pretty rough. |
| **07/04/21**<br>Dose 2 · days 1–6 | Still feel flu like symptoms. My thermometer broke so I cannot monitor my temps this time. |
| **07/05/21**<br>Dose 2 · days 1–6 | Still having chills and body aches. Generally feeling of being unwell. |
| **07/28/21**<br>Dose 2 · 28 day | **I've developed a dry cough that won't go away. I've also got sinus pressure, but I normally don't have allergies this time of year. I went and got tested for antibodies again. I tested negative. The vaccine did not help me develope any antibodies.** |
| **08/12/21**<br>Dose 2 · 42 day | Diagnosed with bronchitis. This is not uncommon for me to have. Got tested for COVID-19, came back negative for me and my husband, but we are still isolating so there wasn't much chance of that anyway. Still recovering from reactions to vaccine too. |

| **09/01/21**<br>Dose 2 · 3 month | Viral sore throat. But the second vaccination did give me a side effect of sore breasts for about 4 days |
| **12/05/21**<br>Dose 2 · 6 month | About a week and a half ago behind my left ear area there was swelling and pain and no one can figure it out what it is I have not had any fever and I have not been sick with a cold or flu or symptoms like that — Also doctors appointment asap |
| **07/16/22**<br>Dose 3 · 3 month | Tired fatigued |

## JXC-34591-94347 4 tranches 17

| | |
|---|---|
| **01/19/21**<br>Dose 2 · days 1–6 | Have also been lightheaded every day since last vaccination. |
| **01/22/21**<br>Dose 2 · 7 day | Woke up again in middle of night with right hand completely numb. I was laying on my left side. Lasted ~ 5-10 minutes. Second time this has happened post vaccination. Also it feels like my right hip joint is eroding. Its not good. I didnt get a check in yesterday. |
| **02/03/21**<br>Dose 2 · 21 day | **My joints hurt after vaccination. They never stopped hurting. In particular a hip and a knee.Its to the point where I am limping now. Worsening daily. I would see my doctor but cant afford time off work.Can someone please contact me about this?** |

| | |
|---|---|
| **02/11/21**<br>Dose 2 · 28 day | The immunizations had to have eroded my joints. Severe pain and limited mobility in one hip and one knee. |
| **02/17/21**<br>Dose 2 · 35 day | Joint and muscle destruction continues to worsen.Very dramatic after Covid vaccination.I was able to walk like any normal adult. Not I need a cane at time. Something is terribly wrong with my joints and muscles. Please advise. |
| **02/24/21**<br>Dose 2 · 42 day | Hip/knee joints continue to deteriorate. |
| **04/14/21**<br>Dose 2 · 3 month | Same as post vaccination. It has NOT improved but gotten worse. And that is joint pain.Severe joint pain that affects my ADLs. Other concerns as well but joint pain is the worst. Still having occasional vaccine headaches and a few other symptoms. — Will also be trying therapy. |
| **07/14/21**<br>Dose 2 · 6 month | Bone degeneration has occurred significantly.My femur has collapsed.Now I have to have a total hip replacement.Constipation still present significantly, now need colonoscopy. — Specialist and surgeon |
| **10/30/21**<br>Dose 3 · days 1–6 | Fever, dizziness, shortness of breath. |
| **10/31/21**<br>Dose 3 · days 1–6 | Little Sore throat, shoulder pain, lightheadedness, and more. |
| **11/03/21**<br>Dose 3 · days 1–6 | Shortness of breath |
| **11/04/21**<br>Dose 3 · days 1–6 | Lightheadedness |
| **11/05/21**<br>Dose 3 · 7 day | Taste bud on my tongue hurts and is falling off. This also happened after previous vaccinations but I did not realize until now that it's all related so wasn't previously reported. Also lightheadedness continues. |
| **11/13/21**<br>Dose 3 · 14 day | This does not ask about my vaccination symptoms. Someone called while I was at work and I asked them to call after 4 pm CST he said ok but never called. Then 3 days later someone calls again when I am at work. Why? I asked to be called after 4pm CST. |
| **12/11/21**<br>Dose 3 · 42 day | **Someone called weeks ago and was going to call back after 430. They never did. Significant side effects. Not followed through with first two doses either ther.** |
| **01/30/22**<br>Dose 3 · 3 month | Skin concerns and all other previously mentioned concerns |
| **05/01/22**<br>Dose 3 · 6 month | Same symptoms plus now growths all over my body. Thrush for unexplained reasons |

## D62-15687-20035 3 tranches 11

| | |
|---|---|
| **03/19/21**<br>Dose 1 · days 1–6 | My injection was given very high on the arm, but the pain is not at the injection site, it is deep inside my shoulder joint. There is no pain in the soft tissue; it is all within the shoulder joint itself. |
| **03/20/21**<br>Dose 1 · days 1–6 | The shoulder joint has always been the issue. 17th, 18th& 19th were severe INSIDE the shoulder joint, Not within the muscle. I also question how high on the arm my shot was given as to if that is why the shoulder joint hurt, but not the muscle? The first 3 days were extremely severe pain in the joint. |
| **03/21/21**<br>Dose 1 · days 1–6 | Joint pain in the shoulder had greatly diminished, though not fully gone. Fatigue may be from environmental allergies. |
| **03/31/21**<br>Dose 1 · 14 day | **Im going to see an orthopedic specialist on 1 April 2021 to address pain inside my shoulder joint that manifested just a few hours after receiving my first injection, & has failed to go away. I never experienced muscle pain, only pain deep in join — Clinic couldnt help me, and instructed me to see a physician, so Im seeing a shoulder specialist tomorrow morning.** |
| **04/16/21**<br>Dose 2 · days 1–6 | I am certain that the joint pain in my right shoulder stems from my first shot being given too high, causing frozen shoulder. The pain I feel now I believe is residual from that first injection. The 2nd shot was lower and did not settle into my shoulder joint like the first one did. The muscle pain is mild and only surrounding the injection site. |
| **04/17/21**<br>Dose 2 · days 1–6 | The shoulder joint pain relates back to the first shot being too high. It only hurts with certain movements. Muscle pain is minimal in deltoid only. Fatigue may or may not be from shit as I also have hay fever and had not taken an antihistamine prior to the vaccine. I am fatigued during allergy season, with or without taking allergy meds. That said, my fatigue could be from BOTH the Covid shot AND hay fever combined. |
| **04/18/21**<br>Dose 2 · days 1–6 | Inside the shoulder joint has some discomfort with certain movements, since the first Covid 19 shot, but is not constant. Still dealing with hay fever, so Im not sure if the fatigue is from the vaccine or allergies. |
| **04/20/21**<br>Dose 2 · days 1–6 | Joint pain is still only in the shoulder joint that manifested a couple hours after receiving the first shot. Pain is not constant. Pain is felt inside the joint with certain movements. |
| **04/21/21**<br>Dose 2 · 7 day | Again, only with certain movements inside the joint since the first shot was administered. |
| **05/07/21**<br>Dose 2 · 21 day | The same shoulder (right arm) where the first shot was given too high up ached again deep inside the joint through the night last night. It comes and goes. Surprisingly, the area where the shot was administered sometimes is tender to the touch also! |
| **05/15/21**<br>Dose 2 · 28 day | Pain inside my right shoulder joint persists, comes and goes, but is never totally gone. The first shot was given too high and caused agonizing injection related frozen shoulder, and it has not been the same since. Some days are better than others. |

| **04/08/21**<br>Dose 1 · days 1–6 | Have chest tightness not sure if it's a lung thing .. just feels heavy |
| **04/09/21**<br>Dose 1 · days 1–6 | **Yesterday after my report, I experienced these symptoms AFTER my last report.. so around 30 hrs from the shot.. chest tightness, rapid heartbeat, rash over right eye and forehead, achey head, itch in throat chest congestion, clearing throat, fever very achey thighs. Have regrets. Can someone contact me as I dont think I should get the second! I feel like this was poison and I am deeply regretful!** |
| **04/10/21**<br>Dose 1 · days 1–6 | Yesterday was 2 days after the shot and I stayed home sick from work with still a mild fever and thigh aches headache right forehead/eye.. pain feels as if I hit my forehead in a car accident. Today Saturday I came to work with left side headache and rash still on right eye/ forehead.. it felt bad until finally I had lunch and 200mg of Advil. Now Im really good. |
| **04/12/21**<br>Dose 1 · days 1–6 | Sunday and today I was as fine but unable to check in Sunday |
| **04/28/21**<br>Dose 1 · 21 day | I feel like on and if I still get the rapid heart beat or nervous heart feeling. Sometimes if I jar awake and then have to breathe slow and deep to slow it down.. its like jittery feeling.. otherwise fine! |
| **05/07/21**<br>Dose 2 · days 1–6 | 8 hours after shot I got bad chills, May 6 early morning 101 fever bad achy head and legs. Rash on forehead over right eye like last shot still have just rash today. Back at work but called off sick yesterday. |

| | |
|---|---|
| **05/08/21**<br>Dose 2 · days 1–6 | Right side forehead eyelid rash getting better.. was itchy before |
| **05/09/21**<br>Dose 2 · days 1–6 | Slightly headachy not sure if it was pressure from rainy weather or muscular or from the shot. Better now |
| **05/14/21**<br>Dose 2 · 7 day | Just sometimes feel an achy head.. dont know if from the shot or muscular |
| **05/20/21**<br>Dose 2 · 14 day | Not sure f this is from shot but woke up off the couch with an extreme locked neck on the left side where the side of my neck leads into the shoulder .. like pain through the bone.. didnt think I slept in a bad position.. was actually normal.. |
| **05/26/21**<br>Dose 2 · 21 day | Today marks one week of a stiff sore right side of neck and between shoulder near left side of spine.. just never had before... usually neck ache from sleeping fin goes away after a couple days |
| **06/03/21**<br>Dose 2 · 28 day | Still neck ache stiffness on left c6-c7 same side as shot for over two weeks... out of the blue. Seeing chiropractor but its not really helping. — Chiropractor |

## TUZ-17206-85223 4 tranches 20

| | |
|---|---|
| **03/23/21**<br>Dose 1 · days 1–6 | My left eye swelled up. Same side as injection. I am in the ER at the moment to determine what is going on. |
| **03/24/21**<br>Dose 1 · days 1–6 | Regular Doctor visit with ophthalmologist — Eye lid swelling on side of injection may have been triggered by injection. Sty formed after the injection. Dont think that was related but not there prior. |
| **03/26/21**<br>Dose 1 · days 1–6 | Still have the eye issue |
| **03/27/21**<br>Dose 1 · days 1–6 | Still dealing with the eye issue, and my tendons in my legs hurt. Noticed as I was driving. |
| **03/28/21**<br>Dose 1 · 7 day | The continuing eye issues. |
| **04/04/21**<br>Dose 1 · 14 day | **I still have on-going eye issues the ophthalmologist doesnt think is related. I disagree. Others have had eye issues since vax. Also, Im a FB personality. Ive had issues with auras (Im epileptic) when live ONLY since vax. Pls call me. (b)(6)** |
| **04/11/21**<br>J&J · 21 day | Started 2 have ringing in the ears, left worse than right, comes & goes. Left eye still droopy. Have dizziness when scrolling on my phone. (New) Not sure related 2 the eye issue or a phone issue. Had 2 unexpected auras when going live 2 sell on |
| **04/18/21**<br>J&J · 28 day | Pain in both legs, knee down starting 4/13/21. Still having more frequent auras & dizziness when scrolling or working FB LIVE on phone. Eyelid still droopy, more as the day goes on. Still some visual issues, ophthalmologist thinks Neuro or muscular |
| **04/25/21**<br>J&J · 35 day | Still have the eye lid issues dealing with, very tired & auras when on phone scrolling or going live on FB. (which didnt happen before the vaccination) Also have intermittent ringing in ears. Have seen Eye Doc, says 2 see Neuro next. Will i |
| **05/02/21**<br>J&J · 42 day | I have been having more dizziness, issues with my eye, ringing in my ears and off balance. I just feel off. Because I have Antiphospholipid Syndrome, I know the signs of a stroke & on Warfarin now. Just feel BAD. Still, better than COVID |
| **06/20/21**<br>Dose 1 · 3 month | The vaccine has effected my warfarin INR levels. Nothing else has changed to effect& I am meticulous about this. The vaccine has also caused drooping of left eyelid where the swelling occurred the day after injection, more frequent auras & more — Initially the ER for my eye, and my regular doc (GP, Neuro, Rheum & Pharmacotherapy) |
| **09/19/21**<br>Dose 1 · 6 month | Droopy left eyelid & increase in cataract, difficulty keeping my INR level stable. Only thing different was the vax. It actually caused my INR to go high. Starting to come back down to stable in time for my booster. Yes, I want the booster. |
| **10/26/21**<br>Dose 2 · days 1–6 | Droopy left eyelid left over from first vaccine |
| **10/27/21**<br>Dose 2 · days 1–6 | I am having an odd reaction to the healing of a suture sight that may have been exacerbated by the booster. |
| **10/30/21**<br>Dose 2 · 7 day | This booster may have put my lupus in flare. Eyelid is droopy, and my finger issue is getting worse near where suture site was. |
| **11/14/21**<br>Dose 2 · 21 day | Still dealing with droopy eye, and finger issues. We are watching the site to see if it will require surgery. My hands will be seen by a physiotherapist. — Hand specialist |
| **11/22/21**<br>Dose 2 · 28 day | I did have surgery on my finger to relieve the infection the day after the booster brought it to a head. Still have the eye droop. Again, I recommend the vaccine/booster to everyone. What happened would not have changed my decision to get both. |
| **12/04/21**<br>Dose 2 · 42 day | The Raynaud's fingertips are continuing to be a problem with issues that threaten the surgical site. Being sent back to my Rheumatologist, and (b)(6) Derm department, also eyelid remains droopy |
| **04/25/22**<br>Dose 2 · 6 month | My left eye lids are still swelling periodically, and I now have swelling in my parotid gland/nodes on that side. |
| **10/23/22**<br>Dose 2 · 12 month | Spontaneous rupture of blood vessels in the elbow cause acute hemoarthrosis Hyperparathyoidism (primary) Leukoplakia of the side of the tongue waiting biopsies — OT |

| **03/23/21**<br>Dose 1 · days 1–6 | Went to Primary Dr. — High bp and racing heart. Just came from the doctors office and he said I am having a reaction and I cant take the 2nd shot |
| **03/24/21**<br>Dose 1 · days 1–6 | Had to go to the drs office. High bp and fast heart rate with some arrhythmia. Had EKG. Doctor told me I shouldnt take the 2nd shot. Day 6 and I still dealing with a reaction — Still taking Benadryl to counteract the reaction from the first shot. Dr said I cannot take the 2nd shot |
| **03/25/21**<br>Dose 1 · 7 day | In office visit with primary care physician — Extremely agitated today. Tingling sensation all over my body |
| **04/01/21**<br>Dose 1 · 14 day | I had my first Moderna shot two weeks ago and am still having intermittent side effects. Having dizziness, occasional arrhythmia, tingling sensation all over my body, mild headache and mild rash on both arms from elbow to wrist. Cant take second s — My general practitioner and Endocrinologist. Both said Im having a reaction and cannot take second shot. May have to see a neurologist |
| **04/08/21**<br>Dose 1 · 21 day | I had to go for a Covid test on Tuesday of this week. I got sick on Monday with cold like symptoms. Still waiting for test results |
| **04/15/21**<br>Dose 1 · 28 day | **Im still experiencing severe dizziness and a tingling sensation through out my body. Its been a month now & no improvement. Im very concerned. Felt fine before shot. Can you help me get rid of the reactions Im having? — Saw my GP & spoke with endocrinologist & pharmacist. All said Im having an adverse reaction to the vaccine! Told me to see a neurologist now. Can you give me any advice?** |
| **04/22/21**<br>Dose 1 · 35 day | Im still dealing with dizziness and whole body tingling 5 weeks after my first Moderna vaccine shot. I have been advised by several drs & pharmacist not to take the second shot. What will my recourse be for future vaccine? — My GP |
| **04/29/21**<br>Dose 1 · 42 day | Im still dealing with Dizziness and tingling sensations. — GP visit |
| **06/17/21**<br>Dose 1 · 3 month | Its been 3 months since I got the first shot and Im still having issues with tingling sensations throughout my body, dizziness and just feeling strange. Tired. — Primary care physician. Seeing a neurologist on 6/22 because of symptoms from vaccine |

## 8N8-65448-37882 3 tranches 9

| | |
|---|---|
| **04/01/21**<br>Dose 1 · day of shot | I normally have aches and pain particularly in my back. My neck is sore, but it was sore before the vaccination. |
| **04/02/21**<br>Dose 1 · days 1–6 | Neck pain mild. Headache started before I got out of bed; was worse, now mild. |
| **04/03/21**<br>Dose 1 · days 1–6 | Injection site pain less. Headache gone. Neck less stiff. |
| **04/04/21**<br>Dose 1 · days 1–6 | Injection site only mild pain if I pat it; otherwise, no pain. Residual stiffness in neck. Mild headache probable eye strain. |
| **04/25/21**<br>Dose 2 · days 1–6 | **Saturday night, I noticed a lump under my skin above my left clavicle near the middle. Also, theres a 2-3 mound above my left clavicle. I experienced mild itching on my upper left arm both Friday and Saturday nights, but I didnt think much about it until I noticed the lump. Kaiser said its probably a lymph node, watch it, if it doesnt resolve in 2-3 days call back.** |
| **04/26/21**<br>Dose 2 · days 1–6 | Lump and swelling still present. I feel the swelling as I turn and nod my head. Uncomfortable when I palpate the lump or mound. Headache stronger today; I plan to take acetaminophen. Approaching moderate in that I spend a lot of time thinking of how I can lessen the symptoms. |
| **04/27/21**<br>Dose 2 · days 1–6 | Took acetaminophen at 9:00 A.M., because headache was worse. It lessened somewhat, but is worse again. After this update, Ill take a 2nd dose of Acetaminophen. Neck is moving more freely so lymph nodes may have improved somewhat. Lump is still there, maybe smaller. Upper arm pain and itching minimal. Only the headache limits my activities; it may be from eye strain. |
| **04/28/21**<br>Dose 2 · days 1–6 | Lump still present, but its seems smaller. I read it takes a long time for lymph node swelling to subside. |
| **04/29/21**<br>Dose 2 · 7 day | Lump is still present. Some discomfort when palpating. Left-side neck and collar bone area lymph nodes still swollen. |

## HG2-29517-53603 2 tranches 10

| | |
|---|---|
| **03/21/21**<br>Dose 1 · 21 day | My left arm and left side of my neck is sore. But I cant tell if it because I slept on it wrong or otherwise. |
| **03/29/21**<br>Dose 2 · days 1–6 | Experienced brief bought of diarrhea yesterday at ~3-4 hours after receiving vaccine. Noticed large lump and itchiness in my arm at the injection site yesterday evening at ~9 hours after receiving the shot |
| **03/30/21**<br>Dose 2 · days 1–6 | I had a fever of 100.4 yesterday evening. The fever was gone by morning. The more concerning symptom is that my arm is red, swollen and VERY hot to touch at the injection site on my arm. |
| **03/31/21**<br>Dose 2 · days 1–6 | The area at the injection site is about the size of a baseball in diameter and was VERY hot to touch the last couple of days but has become warm to touch today so it appears to be less hot than last two days. |
| **04/02/21**<br>Dose 2 · days 1–6 | The arm area is let hot to touch now. Although still has a hard lump under the skin. Is this swelling? Slightly itchy and red but much better than previous days. Would appreciate if someone would have called to help me assess when it was so very hot to touch as it was quite scary. |
| **04/03/21**<br>Dose 2 · days 1–6 | **There is a large lump under my skin at the injection site on my arm. Although it is no longer red, hot and itchy it is concerning to have a knot/lump under the skin. Can someone please call me to discuss?** |
| **04/04/21**<br>Dose 2 · 7 day | Area still has small hard lump under skin on arm at injection site |
| **11/29/21**<br>Dose 3 · days 1–6 | Some intermittent diarrhea but much less than the first day |
| **02/24/22**<br>Dose 3 · 3 month | Minor skin rash on abdomen and chest area. Unclear if it is related. |
| **09/27/22**<br>Dose 5 · days 1–6 | Yesterday had sharp back pain and spasms in upper middle of my back |

## YUD-17798-14883 18

| | |
|---|---|
| **02/27/21**<br>Dose 1 · day of shot | Just feel a bit off. Some pins snd needles feeling, but I get that sometimes anyway. Feel like on the verge of a headache. |
| **03/03/21**<br>Dose 1 · days 1–6 | Just a mild headache twinge on and off |

| | |
|---|---|
| **03/04/21**<br>Dose 1 · days 1–6 | I was only unable to work about 30 min when this came on. Otherwise worked. Severe stomach pain in circle right above my belly button for about 20 minutes. I have had this same feeling before 2 other times, so no likely related to vaccine. I have been a bit dizzy and had some vision migraine too. Rain coming tomorrow so may be weather related. |
| **03/05/21**<br>Dose 1 · days 1–6 | Just a little dizziness and vertigo. Likely not from the vaccine as I get this ok and off with my vision migraines. Rain came through today which is a normal trigger for me. |
| **03/13/21**<br>Dose 1 · 14 day | Had some swollen lemon nodes by my ears a day or two after the last check in. Nothing since. |
| **03/24/21**<br>Dose 2 · day of shot | Feeling a bit cold but not really feverish. I often times feel cold like this. |
| **03/25/21**<br>Dose 2 · days 1–6 | **I started feeling really poorly last night before bed and overnight was rough. I was shaking and that is when I likely had a fever but I didnt t get up to check it then. My whole body was very sore and I was so tired but slept poorly. I had trouble getting out of bed this morning. When I got up I was sweating and felt a bit nauseated. I took my temp then but it was under normal, so fever must have broken by then. I was not able to work until about 11:15. I had to cancel a morning meeting and was far from 100% all day. 8 took an Advil around 8:30am and this dud help me. My shot yesterday was about 9:45am around 10:15am I felt a bit better. Still weak but a little less sore. Likely from the Advil.** |
| **03/26/21**<br>Dose 2 · days 1–6 | Some swollen lymphnode |
| **03/27/21**<br>Dose 2 · days 1–6 | I have some swollen and tender lymphnodes. One in particular very large and tender on my neck on my left side in front. I have had thyroid cancer and had surgery there twice. Normally this would make me nervous, but I expect it it from the vaccine. One |
| **03/28/21**<br>Dose 2 · days 1–6 | My left eye has been really twitching a ton today. It has been on and off since the vaccine but a lot more today. I dont think I reported that in any of my earlier reports. I had some twitching after my first dose too. I still have lymphnodes swollen in my neck |
| **03/29/21**<br>Dose 2 · days 1–6 | I still have a lot of lymphnodes swollen in my neck. My eye twitching has been better today. Mostly gone. |
| **03/30/21**<br>Dose 2 · days 1–6 | Some eye twitching again today on the shot arm side. Otherwise good. |
| **03/31/21**<br>Dose 2 · 7 day | Still some eye twitching in my left eye. |
| **08/23/21**<br>Dose 3 · days 1–6 | Some vertigo too. I likely had a higher fever last night but felt so badly I did not check it. I was shaking and very cold. This morning I was sweating profusely. I think no fever for a while but then I felt cold again and took it snd it was 99.3 |
| **08/24/21**<br>Dose 3 · days 1–6 | Slight tenderness on my right side under my ribs. I have swollen lymphnodes I my neck front and back and under my arm |
| **08/25/21**<br>Dose 3 · days 1–6 | Minor tiredness today. I forgot to note some ear pain yesterday and some today. My lymphnodes are still a bit swollen but not as much as yesterday |
| **08/26/21**<br>Dose 3 · days 1–6 | Swollen lymphnodes |
| **08/27/21**<br>Dose 3 · days 1–6 | Still swollen lymphnodes in neck and back of head and under arm |

| **06/18/21**<br>Dose 2 · 35 day | Many new superficial veins, pain in back of the head. Leg pains and weaknesses |

## DPJ-58277-36792 2 tranches 9

| | |
|---|---|
| **04/09/21**<br>Dose 1 · day of shot | The one symptom that concerns me is about 1/2 hour after my 1st dosage my lips were numb and my face was tingly. I took a benadryl and had a nap and I feel better. The sensations have subsided some. Also my arm is a little sore. |
| **04/10/21**<br>Dose 1 · days 1–6 | I am experiencing slight pain in my chest above my breast but below my neck. |
| **04/12/21**<br>Dose 1 · days 1–6 | The entire right side of my head has been in pain. |
| **04/13/21**<br>Dose 1 · days 1–6 | My head on the right side is still hurting. I saw my doctor and she told me to rest and monitor the situation for changes. If anything happens I should call her |
| **04/14/21**<br>Dose 1 · days 1–6 | There is still pain on the right side of my head. |
| **04/15/21**<br>Dose 1 · days 1–6 | Each day it is getting better. |
| **04/30/21**<br>Dose 1 · 21 day | **The pain below my neck is in a larger area and I feel jittery. I am afraid to take the second dose and I need to speak with someone to tell me if my concerns are legitimate. I had no problems prior to the first dosage. Please have someone call me.** |
| **05/07/21**<br>Dose 1 · 28 day | I have been having pain in my chest that didn't start until after the first dose. The first dose I had an immediate reaction of tongue numbness tingling of face and lips and 2 days later my head hurt. MRI and EKG normal. — My doctor's office |
| **07/09/21**<br>Dose 1 · 3 month | Still having twinges of pain in my chest but it's not frequent. My stomach is beginning to be upset when I eat. I can't tolerate certain foods that I used to enjoy. Other than that I am ok. My husband is noticing a rash on his arm since his vaccin |

## Q7J-17375-77056 2 tranches 8

| | |
|---|---|
| **04/13/21**<br>Dose 1 · days 1–6 | Health advice for a histamine blocker and extra fluids via telephone with my primary care physician. I'm concerned it's worse now. — Feeling of falling when sitting down. Odd and uncomfortable sensations all over. Feeling like I'm floating at times, similar to dizziness. Every feeling is not normal to any flu, infection or other natural illness I've had before. |
| **04/14/21**<br>Dose 1 · days 1–6 | Feeling unstable while standing, feeling near fainting while upright |
| **04/15/21**<br>Dose 1 · 7 day | Lightheadness, near fainting feeling while standing, overall bad and unnatural awful feeling |
| **04/22/21**<br>Dose 1 · 14 day | **Flu like symptoms with fever haven't stopped why don't you help me please I can't take it?** |
| **04/30/21**<br>Dose 1 · 21 day | After exercise the flu like symptoms come back and last a day or two, during which I'm back on bedrest or it prolongs the recovery from symptoms. |
| **05/06/21**<br>Dose 1 · 28 day | The flu like symptoms come back so regularly I need the CDC to give helpful advice if I'm not the only person to go through this from the vaccine. Also the arm pain doesn't go away for me, not just the injection site. |
| **05/16/21**<br>Dose 1 · 35 day | Fever and flulike symptoms most days without other cause. First waking in the morning feels near normal but getting up symptoms return the more exertion the faster the symptoms hit me and worse it feels. |
| **05/23/21**<br>Dose 1 · 42 day | I still have recurring fever and sickness after what was a normal days exertion. The arm that I received the vaccine in is as painful as it was at it's worst. The arm pain amount comes and goes in intensity each day is different. Very sick now. |

## B2P-77182-14480 3 tranches 12

| | |
|---|---|
| **07/07/21**<br>Dose 1 · days 1–6 | **Please call me. Severe reactions as I already have a post viral illness. Please call me soon** |
| **07/16/21**<br>Dose 1 · 14 day | Hives, congestion, severe headaches, extreme fatigue |
| **07/23/21**<br>Dose 1 · 21 day | Fatigue,headache, stuttering. |
| **08/24/21**<br>Dose 2 · 21 day | My ME/CFS has been worse. |
| **08/31/21**<br>Dose 2 · 28 day | Weak. Migraine. Exhaustion. Stuttering. |
| **09/14/21**<br>Dose 2 · 42 day | My ME/CFS health problem is worsening. |
| **11/02/21**<br>Dose 2 · 3 month | Headache, fatigue |
| **02/28/22**<br>Dose 3 · days 1–6 | Extreme exhaustion |

Now on Symbicort Inhaler, Singular and Cholestyramine powder packets. Do you ever contact me personally? — To Dr office for exam** |

## BAS-10396-97920 — 7

| | |
|---|---|
| **04/08/21**<br>Dose 1 · days 1–6 | I still have some andioedema but the breathing has improved. |
| **04/09/21**<br>Dose 1 · days 1–6 | The lymph under my chin are quite large and painful. I still have the angioedema which was rather bad this morning. |
| **04/10/21**<br>Dose 1 · days 1–6 | I still have andioedema. Unfortunately I did not realize that Zyrtec had peg in it until Friday. So mild improvement today. |
| **04/11/21**<br>Dose 1 · days 1–6 | Still have some andioedema. Unfortunately for pvcs today because of all the antihistamines. Have a headache but nausea is improved. Still hot and sweaty but not as bad as previously. I will not being getting shot 2. |
| **04/12/21**<br>Dose 1 · days 1–6 | **As far as what I do at home, it int much, so not being able to not do much is not a big deal, but there were a few days where I was not in good shape to look after my son. I do not recall if I said in the first if these that eight after the shot I had an intense smell of iron, or mettle. It last until I got home. As of now I have a headache and some random muscle pain. The last part maybe the vaccine playing on the Ehlers Danlos. After Saturdays pvcs, high bp and mad heart rate from the meds, I cant take moreand will just have to ride out the inflammatory attack caused by the vaccine. I am hyper sensative to antihistamines and Tylenol. Including pepcid. It will likely take me at least a month or more to get back to where i was before the vaccine, which was managing inflammation and pain very well with no meds at all. So in the earlier notes I wasnt sure if i should be commenting only about the vaccine or my health issues exacerbated by the vaccine. If you ever want clarification please feel free to contact me.** |
| **04/13/21**<br>Dose 1 · 7 day | Today I just felt hung over. Still have some anioedema. |
| **07/06/21**<br>Dose 1 · 3 month | I continue to have occasional swelling of the tongue and face. I still have some random high bp and heart rate but not as badly and not as often. I still get random feeling poorly and sweats. — I saw both my gp by video the Friday after the injection and then about a month later I went to see my allergist Dr (b)(6). |

| **01/23/21**<br>Dose 1 · 7 day | Still coughing |
| **01/30/21**<br>Dose 1 · 14 day | I had a couple of bleeding incidences. I am on warfarin but I typically dont have any issue. Also, I was dizzy thru day 12. Ive had difficulty regulating my blood pressure and my INR. Today is my first feeling normal day. |
| **02/06/21**<br>Dose 1 · 21 day | Im having a heckuva time with my breathing. Maybe its the wind. Im still doing breathing treatments every six hours and using an inhaler. |
| **02/13/21**<br>Dose 2 · days 1–6 | No, I feel blessed! |
| **02/15/21**<br>Dose 2 · days 1–6 | My right leg aches from the hip down |
| **05/12/21**<br>Dose 2 · 3 month | More trouble breathing but dont think it has anything to do with the vaccineI have been a real space cadet, the last couple of weeks. I think its caused by my almost complete isolation. Its like ive forgotten how to have a normal conversa — Saw my PA |
| **08/13/21**<br>Dose 2 · 6 month | Still doing breathing treatments daily. The big vein in my left hand keeps swelling. It hurts a lot, when its swollen. My PA said she thought it might be arthritis causing swelling and pushing on the vein but I dont think so. Keeps me awake so — I saw my PA in person, in june |
| **11/03/21**<br>Dose 3 · 42 day | E. coli infection in Parastomal hernia — Prescriptions |

| | |
|---|---|
| **03/23/22**<br>Dose 3 · 6 month | Required two new stents, one in the RCA and one in my upper leg on March 11 |
| **05/25/22**<br>Dose 4 · 3 month | I am having a terrible time with my blood pressure |

## FSK-18753-68503 3 tranches — 10

| | |
|---|---|
| **01/18/21**<br>Dose 1 · days 1–6 | Very sleepy |
| **01/21/21**<br>Dose 1 · days 1–6 | **Was told to call me regular doctor. He told me to take benedry the next day my doctor called in methylPREDNISolone 4 MG. Starting tonight — Head is itching** |
| **01/22/21**<br>Dose 1 · 7 day | Telephone, m d was call d you n for the rash — Head and neck itching, rash across chest, back and bend of arm |
| **01/29/21**<br>Dose 1 · 14 day | Extremely tired. No energy |
| **02/14/21**<br>Dose 2 · days 1–6 | Yes on Feb 13 I had chills, fever that lasted all day |
| **02/26/21**<br>Dose 2 · 14 day | Very tired and at times dizzy |
| **03/12/21**<br>Dose 2 · 28 day | Very tired |
| **03/21/21**<br>Dose 2 · 35 day | Very tired. Fell and hurt my entire body. |
| **05/15/21**<br>Dose 2 · 3 month | I am not sure if it is from my shot or a stress test that I have had recently. I have lots of tingling down the left side of my neck, across the left side of my face and across my upper back — Office visit for stress test results. Were good but he was not very concerned about the tingling. He suggested it was probably because of the way I was holding my arms during the stress test. |
| **08/13/21**<br>Dose 2 · 6 month | Bad headaches at times, itching skin on arms and back, very bad tooth infection. — Visit to dentist |

## 5V9-23008-93420 — 5

| | |

## 6D5-33642-90444 2 tranches 5

| | |
|---|---|
| **01/10/21** Dose 1 · days 1–6 | Cough |
| **01/11/21** Dose 1 · days 1–6 | Dizziness and nauseas |
| **01/15/21** Dose 1 · 7 day | **Please I need treatment for shingles but the doctor think that valacyclovir can interact with the vaccine. Please call me. — Shingles diagnosed by MD** |
| **01/22/21** Dose 1 · 14 day | Nauseas, diarreas, blister like herpes zoster, headache, sore throat, Pruritus — Biopsy |
| **01/29/21** Dose 1 · 21 day | Pain: neck, back and legs. Sometimes tingling in face. I am taking baclofen but the pain continue. |

## 2M9-43994-42626 2 tranches 5

| | |
|---|---|
| **01/13/21** Dose 1 · days 1–6 | Nausea, dizziness, fatigue, chills for first two days. |
| **01/15/21** Dose 1 · days 1–6 | Strangely, today things smelled strange and tasted strange. I threw two things away that I was going to eat. |
| **01/19/21** Dose 1 · 7 day | Feeling odd, Sort of spacey. Like Im in a brain fog. I would like to add that I had no redness at the injection site at all until yesterday. My arm was uncomfortable and I looked and there was about a quarter size red mark at the injection site. Since yesterday it is grown to the size of my palm |
| **01/25/21** Dose 1 · 14 day | **Case (b)(6) I called and spoke to Moderna regarding A strong delayed hyper sensitive reaction, according to my doctor. The person I spoke to at Moderna could not help me at all. She was willing to open a case with the above number.** |
| **02/22/21** Dose 2 · day of shot | I got the second Moderna vaccine on February 18. I tried to put that date in twice, was having problems with the pulldown menu. |

## Y36-27489-26851 4

| | |
|---|---|
| **01/15/21** Dose 1 · days 1–6 | Rash on neck |

| | |
|---|---|
| **01/16/21**<br>Dose 1 · days 1–6 | Hives neck, face, back, abdomen |
| **01/17/21**<br>Dose 1 · days 1–6 | **Hives on body- i need someone to call me to discuss** |
| **01/18/21**<br>Dose 1 · days 1–6 | This is the last I will fill out unless someone calls me about this. It is ridiculous that no one has reached out to me about a serious systemic reaction requiring ED visit and allergist follow up. I have left voice mails with the health department. The lack of help and concern, not to mention lack of guidance, for serious adverse reactions is appalling and disgusting. As a healthcare provider, I can confidently say that this is an appalling ball drop for our health department and has left me less than confident in recommending my patients get a vaccine which will leave them ha going out to dry alone if they have issues with it. Stop sending surveys and actually respond when people need you |

## 7J7-15780-40779 2 tranches 8

| | |

## YUL-13243-63028 3 tranches 15

| | |
|---|---|
| **03/11/21**<br>Dose 2 · days 1–6 | Dizziness |
| **03/12/21**<br>Dose 2 · days 1–6 | Dizziness and severe pain from my head to my feet but only on the back side of my body. Loss of appetite. Feeling hot all over. |
| **03/13/21**<br>Dose 2 · days 1–6 | Metallic taste in mouth. Had to take Tynanol today for the pain in my back neck head & legs As became quite unbearable. The pain comes in troughs and waves starting mild and becoming too severe and caused me to cry. Feeling exhausted with this process now. |
| **03/14/21**<br>Dose 2 · days 1–6 | Feeling flushed mostly when experiencing pain severely. Today my arms and legs had weird sensations like nerve sensitivity as well as back, neck, shoulder pain. |
| **03/15/21**<br>Dose 2 · days 1–6 | Went to hospital emergency at 4am this morning as the pain was so bad that I was sobbing and the Tynanol was not helping. They did tests and sent me home to keep using Tynanol or Ibuprofen, which I used throughout the day. My husband started massaging my back pain and that was helpful in easing the pain. Still feeling poorly, dizzy, exhausted, headachy, back and ringed torso pain and nerve sensations down my arms and legs. |
| **03/16/21**<br>Dose 2 · 7 day | Slept for two hours, then woke up at midnight in pain all over and couldnt go back to sleep. Took Advil one at 3am and walked around the house to cope with the pain. Went back to sleep about 6am for a couple of hours. One more Advil at 9am and Mainly joint pain today. Massages helped back/spine pain. Had a respite for a couple of hours where the pain was dulled. Pain all over came back severely at 2.30 so had one more Advil. Stopped taking Tynanol as I broke out in hives on my face and chest. Not sure Ill take Moderna again! |
| **03/30/21**<br>Dose 2 · 21 day | I have been in severe muscle and joint pain for two weeks following my second Moderna shot. It has gradually eased to discomfort and aches in joints daily. |
| **04/06/21**<br>Dose 2 · 28 day | No not really it its weeks since my second jab and I still feel very tired. |
| **04/20/21**<br>Dose 2 · 42 day | **Still very tired, and not 100%, but no worsening symptoms. I pressed yes, so I could record this. Needed the box option for no too. Will someone contact me because my reaction to the 2nd Moderna was extreme pain for 2 weeks. (b)(6)** |
| **09/09/21**<br>Dose 2 · 6 month | Ive said yes so I could comment, but other than tiredness I have no new symptoms. However, I had two weeks of muscle, nerve, & joint pain following my second Moderna vaccine shot & no one has bothered to contact me to discuss this. Phone(b)(6) |
| **12/11/21**<br>Dose 3 · days 1–6 | Loss of appetite |
| **12/13/21**<br>Dose 3 · days 1–6 | Still a little tired but symptoms eased. After the second moderna I experienced such severe muscle, joint & nerve pain for two weeks, so I'm pleased this didn't happen for the booster! |
| **12/14/21**<br>Dose 3 · days 1–6 | Still More tired than usual. Exercising is not as easy as previously |
| **05/20/22**<br>Dose 4 · days 1–6 | Didn't sleep much last night |
| **08/20/22**<br>Dose 4 · 3 month | Runny nose, cough, dry throat but tested negative three times for covid |

| | |
|---|---|
| **04/16/21**<br>Dose 1 · 14 day | Mild headaches |
| **10/01/22**<br>Dose 4 · 14 day | Since my booster on September 17, I have experienced varying levels of back pain in an area where I have disc bulging and herniation.It came "out of the blue" the day after my booster.My Dr informed me this could have been triggered by the booster. |
| **10/08/22**<br>Dose 4 · 21 day | **Still experiencing tremors and shaking episodes. Just had one actually. It lasted about 15 minutes. I'd like someone to contact me so I can give a better description.** |
| **10/15/22**<br>Dose 4 · 28 day | I'm still experiencing a back flare-up with pain, inflammation and muscle twitching. — Several physiatrist and physical therapist appts. Next I will see a neurologist. |

## DH6-24974-91719 2 tranches 4

| | |
|---|---|
| **04/16/21**<br>Dose 1 · days 1–6 | I had chest pain yesterday morning. The pains came and went away several times within 45 minute. Later I felt pain on my back. |
| **04/24/21**<br>Dose 1 · 14 day | I still have chest pain since 4/13/21 after the vaccination. I will need to see a cardiologist. |
| **05/08/21**<br>J&J · 28 day | Continue having chest pain. Just experienced a worse chest pain on the right side a few hours ago. |
| **05/17/21**<br>J&J · 35 day | **Continue having chest pain. Please call me** |

## YAZ-21527-49982 3 tranches 7

| | |
|---|---|
| **04/19/21**<br>Dose 1 · days 1–6 | My rash (redness, but no itching, pain or sensitivity) is visible in small patches at the top of both cheeks and on both upper eyelids between my eyebrows and the creases in my lids. My eyes and the skin around them have been pretty irritable for a couple weeks, so this new rash may not have anything to do with my vaccine. But I decided to report it, just in case, since it only appeared today. |
| **04/22/21**<br>Dose 1 · days 1–6 | Faint bruise at the injection site |
| **05/10/21**<br>Dose 2 · days 1–6 | **This symptom's timing is uncanny because it happened to me on the second night following both of my vaccine doses (see my 4/18/21 log for the first incident)..... I couldn't sleep last night (5/9/21) because I started to feel unbearably hot soon after I went to bed. I got up and read for about 3 hours until I was sure I could get under my blanket without getting too hot. At that point, I went back to bed and fell asleep..... This feeling of being overheated is different from a fever - I'm familiar with it because I often become suddenly and excessively hot (usually during the day) because my body has trouble regulating its temperature. But the fact that it happened twice (less than 36 hours after each shot) and at night (when I usually don't experience this sensation), makes me wonder if it's related to the vaccine..... If you call me for more details and I don't answer, please leave a voicemail so that I know it's the CDC trying to reach me, not a solicitor. I'll be vigilant about answering the next time you call, or I can call you back ASAP if you leave directions on how to do so. Thanks!** |
| **12/30/21**<br>Dose 3 · days 1–6 | Allodynia in upper left arm (same as injection site), spreading to chest area, relieved by OTC Tylenol, but then returned |
| **01/01/22**<br>Dose 3 · days 1–6 | The area on my left side just below my armpit is still sore (ie. the standard "My body is fighting a germ" lymph node pain). There's still a hint of allodynia on the bottom & back of my left arm, but it's barely noticeable today |
| **01/13/22**<br>Dose 3 · 14 day | The muscles between my shoulder blades hurt - similar to day-after soreness from a good workout, except I haven't worked those muscles in any unusual way. Also, older issues (est'd pre-booster) flared up today. Contact for details, char limit too low |
| **06/29/22**<br>Dose 3 · 6 month | Nothing Covid related. I was diagnosed with Celiac Disease and have seen both decline (pre-diagnosis) and improvement (post-diagnosis) in my health since my last V-Safe check in. |

## 3C8-28929-85463 2 tranches 4

| | |
|---|---|
| **04/21/21**<br>Dose 1 · day of shot | Itchy tongue and throat right about a half hour after receiving vaccine. It did not get any worse. Symptoms subsided in about 30 to 40 min. I had EpiPen on hand just in case. |
| **04/23/21**<br>Dose 1 · days 1–6 | **I had called and relayed my symptoms to my doctor's office and they had someone call me back. — I woke up this morning feeling very jittery. It's kind of hard to explain kind of like I took a lot of speed or something. A very unsettling feeling creepy crawlies.** |
| **04/24/21**<br>Dose 1 · days 1–6 | Still feeling like I've been injected with some sort of speed for lack of a better discrimination. Very very agitated. |
| **04/26/21**<br>Dose 1 · days 1–6 | I don't know if this has any relation to getting the vaccine but I was told to mention it. On and off for a few days I've been getting sharp quick pain in or under my left breast. It's hard to pinpoint exactly. Then today I started getting shooting pain up my left shoulder and left side of my neck. Again this pain comes and goes. The only lingering pain is the left side of my neck that feels like a stiff neck. I really didn't think it would have had anything to do with the vaccine but like I said I was told to mention it. |

## SSN-33499-44839 4

| | |
|---|---|
| **04/28/21**<br>Dose 1 · days 1–6 | General mild lethargy - like something has triggered my immune system :-) |
| **05/24/21**<br>Dose 2 · days 1–6 | Why did you stop contacting me on the 18th? I had symptoms to report. |
| **05/25/21**<br>Dose 2 · days 1–6 | **Please contact me re: symptoms following 2nd shot on May 20** |
| **05/27/21**<br>Dose 2 · 7 day | Upper arm & shoulder, back of neck and lower back all felt like a phantom version of how they felt the day after the 2nd dose. This has now dissipated. |

## DG6-13354-58229 4

| | |
|---|---|
| **05/08/21**<br>Dose 2 · 14 day | I am having extreme light sensitivity. My vision is blurry. I am also drooling a bit. I thought it was a side effect of other medications, and it still could be. |
| **05/12/21**<br>Dose 2 · 21 day | I am having increasing light sensitivity. They are taking me off all of my medication, and it only appears to be getting worse. I am using talk to text for this. I am also drooling and twitching when exposed to light. — Ophthalmology |
| **05/24/21**<br>Dose 2 · 28 day | **Increased light sensitivity, uncontrollable shuddering. It was not due to my medications. I have been referred to a Neurologist. I have seen six doctors and no one has been able to explain it. If you think this may be an adverse effect, call me.** |
| **06/02/21**<br>Dose 2 · 42 day | Photophobia and eye pain |

## NYE-11675-82960 5

| **07/02/21**<br>Dose 1 · 42 day | **Please contact me (b)(6)** |

## F4X-18836-12783 — 3 tranches — 12

| | |
|---|---|
| **02/04/21**<br>Dose 1 · days 1–6 | My left arm is unusually weak. |
| **02/05/21**<br>Dose 1 · days 1–6 | Diarrhea is gone but I'm super gassy. |
| **02/06/21**<br>Dose 1 · days 1–6 | I have chronic pain issues. I don't know if this is related to the shot or the frigid cold. My left arm is tender in the injection area, and it is weak. Mind you, I had a severely pinched nerve that I had surgery to fix,and definitely not at the 50% capacity I was before it got cold. |
| **02/07/21**<br>Dose 1 · days 1–6 | Gassy, and my joint, muscle pain and fatigue might not be related to the shot. |
| **02/08/21**<br>Dose 1 · days 1–6 | The arm is more like a heavy feeling. Possibly due to the pinched nerve issues. Back pain is ongoing since 23 years ago. Knees are from statin drugs. |
| **02/09/21**<br>Dose 1 · 7 day | Again, I don't know if this is related to the vaccine or to my other issues. |
| **03/03/21**<br>Dose 2 · 7 day | A cough but could be bronchitis, I get it every fall and winter. |
| **03/10/21**<br>Dose 2 · 14 day | My back is terrible and I'm extremely fatigued. Simple things wear me out. — Referral to PCP and pulmonologist |
| **03/17/21**<br>Dose 2 · 21 day | Coughing, back muscle pain, joint pain in knees and left hip (bursitis) |
| **03/24/21**<br>Dose 2 · 28 day | My back is terrible. |
| **04/07/21**<br>Dose 2 · 42 day | Breathing issues got worse and coughing too. And fatigued so I am being referred to a pulmonologist |
| **08/25/21**<br>Dose 2 · 6 month | **The fatigue, body aches and pains are worse, not to mention the weakness. I'm barely functional at home, I don't drive, and can't seem to get a diagnosis to help me with anything. I can't work, can't get SSI. It shouldn't be this bad. — Pain management** |

## F69-32665-54803 — 3 tranches — 3

| | |
|---|---|
| **03/31/21**<br>Dose 1 · 14 day | Intermittent nausea, dizziness and lethargy |
| **05/14/21**<br>Dose 2 · 28 day | Fatigue, severe cramping |
| **07/14/21**<br>Dose 2 · 3 month | **VERY HEAVY PERIODS after not really having them anymore. Horrible cramping and Ive been dizzy and queasy. Also low energy and napping daily. I overall just dont feel like myself and hope someone can call me to discuss as Im concerned. (b)(6)** |

## MEZ-44152-19518 — 3 tranches — 6

| | |
|---|---|
| **02/03/21**<br>Dose 1 · day of shot | High blood pressure- controlled by Rx |
| **02/09/21**<br>Dose 1 · days 1–6 | Im 77. I have stiffness ans soreness and ichyness but not an increase that I would attribute to the vaccine. Apart from the temporary arm soreness I dont believe Ive had any other reaction. |
| **10/03/21**<br>Dose 3 · days 1–6 | **Please call me Tom. Thank you.** |
| **10/27/21**<br>Dose 3 · 28 day | While prolonged exercise walking I have been experiencing hand swelling and some pain in left leg. Seeing my primary care and will have ultrasound exam of left leg. |
| **03/30/22**<br>Dose 3 · 6 month | Trigeminal neuralgia flare up — Doctor appointment |
| **11/05/22**<br>Dose 5 · 42 day | My wife and I have colds. My temp 97.4 and O2 98%. We both have negative home covid tests which we just took. My wife's temp 96.9 and O2 96%. She came down with cold several days ago and is getting better I'm just starting out. |

## MR5-33464-89734 — 3 tranches — 6

| | |
|---|---|
| **01/27/21**<br>Dose 1 · days 1–6 | Congestion, sore throat, swollen lymph nodes |
| **01/28/21**<br>Dose 1 · days 1–6 | Swollen lymph nodew |
| **02/09/21**<br>Dose 1 · 14 day | Joint pain, fatigue, urinary tract infection. Nausea that is probably due to the uti antibiotics. Most likely none of this is vaccine related other than my immune system being depleted. Expected results for my health conditions. |
| **02/26/21**<br>Dose 2 · days 1–6 | Immune system knock back probably allowed for bacteria to flourish. Getting treated for a uti. As with the previous shot i expected complications because of my health conditions. |
| **08/25/21**<br>Dose 2 · 6 month | **High ferritin normalized after therapeutic phlebotomy. Likely an aftereffect of hysterectomy, but genetic testing for hemochromatosis was negative. Missed a vsafe call, couldn't get call back through to complete follow up. Got a booster 8/16.** |
| **11/15/21**<br>Dose 3 · 3 month | Primary immunodeficiency diagnosed. Low igg4 has been intermittent before but now it's down and has stayed down. In process of more testing to qualify for treatment. This booster vaccine knocked my immune system back but it was already an issue. — Regular appointments and bloodwork have been delayed or canceled |

## QFS-29808-04660 — 3

| | |
|---|---|
| **08/20/21**<br>Dose 1 · days 1–6 | Experiencing some, sore throat, tender ears, very slight cough, some shortness of breath and just want to sleep as I feel so tired |
| **08/29/21**<br>Dose 1 · 14 day | Terrible cough, spitting just a tiny bit of white mucus, still want to sleep a lot, still tired, chest is a little sore from all the coughing |
| **09/19/21**<br>Dose 1 · 35 day | **Today I went to get my 2nd covid shot. The pharmacist didnt feel comfortable giving me my 2nd shot with all the symptoms Ive had from my first dose. I really got very sick.I have major health issues can someone call me about what Im suppose** |

## SUT-10769-80745 3 tranches 3

| | |
|---|---|
| **01/15/21** Dose 1 · days 1–6 | Lower back from vomitting all day |
| **04/13/21** Dose 1 · 3 month | Next day after my first and 2nd vaccine I vomited all day. Very nausea all day. I have upper back problems after covid. I reported and was told someone would be contacting me. No one did. |
| **07/13/21** Dose 1 · 6 month | **Shortness of breath. Tired. My muscles hurt. Also the vaccine made me vomit all night. I reported it and was told someone would call me. No one called.** |

## WBU-30952-33496 2 tranches 4

| | |
|---|---|
| **04/07/21** Dose 2 · 28 day | I had a lumpectomy for breast cancer on March 24th so Ive been recuperating from that. I didnt mention it last week because its not COVID-related. |
| **06/09/21** Dose 2 · 3 month | **Infected radiation rash. I also lost my Covid vaccine card which is causing me great distress. Can you help, please? — Office visit and scrip** |
| **09/12/21** Dose 2 · 6 month | I got a COVID booster shot on 8/31/21 at CVS due to having Sjogrens Syndrome. I also got my flu shot that same day. My only reaction was that I vomited up my supper which was eaten right after getting the shots & I was queasy for 24 hours. |
| **03/12/22** Dose 2 · 12 month | Had a nasty respiratory infection and resulting asthma attack. Antibiotics and prednisone helped a lot. Feeling much better! — Office visits |

## WN6-30714-22814 3 tranches 4

| | |
|---|---|
| **03/18/21** Dose 1 · days 1–6 | Heat flashes |
| **05/04/21** Dose 2 · 28 day | I have a weird feeling in my arm where I got the shots. My arm bothers me when I move it a certain way. |
| **07/06/21** Dose 2 · 3 month | **Having problems with my arm where I got my shot when I move it a certain way it hurts me so much please can someone contact me about my situation** |
| **10/05/21** Dose 2 · 6 month | My arm where I got the second shot does not function well |

## Y4L-36113-81215 3

| | |
|---|---|
| **08/24/21** Dose 1 · days 1–6 | SO TIRED |
| **08/26/21** Dose 1 · days 1–6 | Im not getting my period. It was supposed to come on Tuesday. Its late. Probably the shot interfered? I want answers |
| **08/28/21** Dose 1 · days 1–6 | **Delayed menstrual cycle. I need answers. Someone call me** |

## YHC-25799-22668 3 tranches 3

| | |
|---|---|
| **03/26/21** Dose 1 · days 1–6 | Burning sensation last night in arm with vaccine, happened 5 hours post vaccine. Feel totally fine otherwise |
| **07/22/21** Dose 2 · 3 month | Menstrual cycle has been wonky since 2nd dose. But nothing to really complain about. |
| **10/23/21** Dose 2 · 6 month | **Still continuing to have weird menstrual cycles. Unsure if someone can contact me about this.** |

## YSM-13466-98487 3 tranches 4

| | |
|---|---|
| **04/01/21** Dose 1 · days 1–6 | I have some of those but when I click on the ability to type something here I dont check them all. I didnt know about this I got the vaccine couple of days ago and I felt horrible. I still have joint pain dizziness. The day of the shot I fell down so my child my dad did it. I just basically passed out with a rapid heartbeat and a lot of pain and weakness. But when I got the shot nobody told me the information was on the piece of paper to login and Ive been trying to find a login and password to get here since I got the vaccine. They couldve done that a lot better. Sunday when I got the shot, I got home I had a headache very dizzy, I fell, hard, |
| **07/27/21** Dose 2 · 3 month | TiredJoint pointStuffyHeadache |
| **10/26/21** Dose 2 · 6 month | **Extreme fatigue. Need to sleep for half an hour every two hours. Memory lost. Loss of balance I don't know why I feel this out. CDC did call me after I told you how bad the vaccine affected me. They directed me to go use the website I can already us** |
| **04/27/22** Dose 2 · 12 month | Why do I bother writing it. I had a bad reaction to the vaccine and I'm not touching the boosters because I was so sick. The CDC even called me and then they referred me to the website that you can put unfiltered data in his feedback. CDC is useless. |

## YVC-19833-95587 3 tranches 4

| | |
|---|---|
| **01/14/21** Dose 1 · days 1–6 | I take a biologic for rheumatoid. I am delaying my infusion in order for the vaccine to provide my immune system to build from the vaccine my infusion |
| **01/15/21** Dose 1 · days 1–6 | Not taking my biologic at this time. So my hand is a little stiff. |
| **02/01/21** Dose 2 · day of shot | Flu like feelibg |
| **08/02/21** Dose 2 · 6 month | **Recovering from a bilateral subdural hematoma -- brain operations. People that I know said my hematoma was the result of the Pfizer Vaccine. I don't believe this. But some of those people are using that rumor from not getting vaccinated. Contact me.** |

## ZE3-17855-34188 2

| | |
|---|---|
| **12/23/20** Dose 1 · days 1–6 | **I'm an RN at a cardiovascular clinic so had my two directors, manager and a cardiologist all help me on-site — Lightheadedness and hypotension but may be from an autoimmune flare up I sometimes have. BP 64/42 at lowest. Almost passed out. They sent me home after I stabilized and canceled our patients.** |
| **12/31/20** Dose 1 · 7 day | The night after the shot the pain woke me up and I couldn't lift my arm more than three inches for several hours. It's taken several days to be pain free. The site was also warm for a few days. I've been very fatigued but also just moved a few days ago so have a lot going on. Mild aches intermittently. |

## 38V-18779-29863 2

| | |
|---|---|
| **12/30/20** Dose 1 · day of shot | Dizziness. And difficulty time focusing on things I'm looking at. |
| **01/13/21** Dose 1 · 14 day | **All day vomiting and fever stomach pain and nausea. Diarrhea and can't keep any solid food in my system. Sensitivity to smells. — I had to call med health and get a covid test** |

## N7M-10946-84285 2 tranches 2

## QXZ-44501-10579 — 2 tranches — 2

| | |
|---|---|
| **04/02/21**<br>Dose 1 · days 1–6 | **At first just experienced mild body aches. Around 1:30am, body aches got pretty bad and suddenly I got really nauseous. I began having whatl believe was an endometriosis flareup, which involves cramps, cold sweats, feeling like Ill vomit / pass out, diarrhea, numb extremities. It lasted 20-30 min. I feel okay now. Just a bit sore all over. I am confident without a doubt that the vaccine triggered an immune response that flared my endometriosis. I dont get these flares often (maybe a couple times a year, can be triggered by new meds). I believe its imperative women with endometriosis know that the vaccine can cause flare ups. It was not pleasant. Please contact me for any details you need. Thank you.** |
| **05/04/21**<br>Dose 2 · days 1–6 | Unexplained depression |

## M3Q-23895-93792 — 2 tranches — 3

## RDK-25208-82359 2 tranches 3

| | |
|---|---|
| **05/01/21**<br>Dose 1 · 7 day | Saw my PCP Monday. Cognitive functions worsened and drove myself to ER on Thursday. — I have lost 2 weeks of work. I have suffered severe cognitive issues: brain fog, difficulty putting words together, memory issues, difficulty changing lanes on highway, exertion to think. Tingling every day in hands and feet. Some numbness in face. I am not well to operate as a teacher in the classroom. I am very concerned about ongoing problems with these symptoms. I was said to have Bell's Palsy, after I went to the ER on 4/29/21. By Wednesday, my cognitive issues had gotten worse. I function very fatigued still with lack of brain sharpness. I had to have lab work done, a heart monitor in the hospital, and an EKG |
| **07/24/21**<br>Dose 1 · 3 month | **Still have tingling & numbness in the face when I get tired. Not even bothering to tell my doctor now. I know I won't get the help or attention. Still takes time to process info at times that I hear. — Doctors know. They cant help me.** |
| **04/25/22**<br>Dose 1 · 12 month | Tinnitus & Body Tremors at Night, Heart Jolts at night, Circulation Issues. Head cold sensations, delirium at times — UNDER NEUROLOGIST NOW |

| **01/22/21**<br>Dose 1 · 14 day | **Arm is slightly red the size of the palm of my hand & sore. Was redder on Monday with a lump underneath & sore and now larger but no lump. It was not red on 17th my last report day. Is this unusual & a concern? Please call me if possible.** |

## MAK-39095-58713 — 1

| | |
|---|---|
| **01/22/21**<br>Dose 1 · days 1–6 | **Text messaging with my allergist — I got the vaccine at 9:15 am, and was okay during the 30 minute observation period, and was discharged. Between 1 and 1:30 am, about 15 hours after receiving the vaccine, I woke up from my sleep suddenly, with an acute episode of chest tightness, cough, severe running nose and lacrimation. I did not have hives or lip/throat itching or swelling. I felt a little warm in the face. I took Ventolin inhaler two puffs twice 30 minutes apart + Aller-flo nasal sprays. I began to feel a bit better and then took Benadryl 25 mgms (because of my history of Angioedema) around 2:30 am. I feel better now, which is 12 hours after onset of episode, but had to take Ventolin inhaler this morning for a bit of chest tightness. I do not have a history of asthma, but have had seasonal allergies in past years. But if this is seasonal allergy, it is very unusual, since I have never had an acute episode like this without any early milder symptoms. And I haven't needed Ventolin in a couple of years. I am now concerned about taking the second dose. I would appreciate it if a person from the CDC can call me to discuss and for advice.** |

| **09/28/22**<br>Dose 5 · 7 day | Seveir edima |
| **10/05/22**<br>Dose 5 · 14 day | Bilateral edema of the legs, migraine status Migraineus not intractable, dizziness, increased thirst. |
| **10/14/22**<br>Dose 5 · 21 day | Jump in congestive heart failure relapse symptoms (short of breath, low oxygen readings, retaining fluids, swollen legs, inability to breathe laying down on my back, dizziness/lightheadedness when standing, headache) |
| **10/19/22**<br>Dose 5 · 28 day | Increased thirst (8+ liters daily) |
| **11/04/22**<br>Dose 5 · 42 day | Whole body aches, stiffness, and pain. — Home Health Nurse |
| **12/23/22**<br>Dose 5 · 3 month | On 12/19/22 at 4pm, while exercising sudden 9/10 pain scale headache, more to the left then right, behind eye, left side blurry + light sensitivity, ER wait 5h CT clean, D-Dimer +Troponin I + INR all within normal. Discharged 12/19/22 pain still 9/10 |

## ZD6-23020-38153 5 tranches 18

| | |
|---|---|
| **03/21/21**<br>Dose 1 · days 1–6 | congestion, canker sore outbreak |
| **03/30/21**<br>Dose 1 · 14 day | Headache, earache, congestion (though I believe this is likely due to a sinus infection at this time of year); Worsening constipation and frequent urge to defecate (history of IBS); Worsening fatigue |
| **04/08/21**<br>Dose 1 · 21 day | GI issues, likely pre-existing. |
| **04/13/21**<br>Dose 2 · day of shot | I have preexisting conditions so these symptoms are pretty common for me - they do not seem different from what I often experience on a periodic basis, though I do have intense heartburn which is unusual. |
| **04/14/21**<br>Dose 2 · days 1–6 | Profuse sweating, cough, sore throat, cold hands & feet |
| **04/15/21**<br>Dose 2 · days 1–6 | Cough, canker sore outbreak, night sweats |
| **04/18/21**<br>Dose 2 · days 1–6 | Canker sore outbreak |
| **05/04/21**<br>Dose 2 · 21 day | GI issues including blood in stool. At ER now. |
| **05/11/21**<br>Dose 2 · 28 day | Worsening GI issues, somnolence, myalgia (I believe these are due to pre-existing conditions and not the vaccine). |
| **05/18/21**<br>Dose 2 · 35 day | GI issues, fatigue, headache (likely due to preexisting conditions). |
| **05/26/21**<br>Dose 2 · 42 day | Worsening GI issues (likely a result of a preexisting condition). |
| **10/12/21**<br>Dose 2 · 6 month | Worsening EDS and myalgia, worsening IBS. |
| **12/23/21**<br>Dose 3 · days 1–6 | Sore throat, chest discomfort, racing heart. |
| **12/26/21**<br>Dose 3 · 7 day | Racing heart, light headed, |
| **01/14/22**<br>Dose 3 · 28 day | Exhaustion (unable to get out of bed), joint pain, lower back pain |
| **01/24/22**<br>Dose 3 · 35 day | Extreme somnolence, lower back pain, leg cramps, intestinal pain. |
| **01/28/22**<br>Dose 3 · 42 day | Worsening myalgia, extreme somnolence |
| **03/18/22**<br>Dose 3 · 3 month | **My whole body feels like it is falling apart. I'm sh\|tting 15-20x/day, not that Kaiser (SoCal) cares. Finally have a consult with rheumatology re possible autoimmune. Vax def made all the symptoms worse. kcuF me. I want to die.** |

| **06/10/21**<br>Dose 2 · 28 day | **Suicidal ideation, migraines** |

| | |
|---|---|
| **06/15/21**<br>Dose 2 · 35 day | Cough and trouble breathing as of yesterday |
| **06/22/21**<br>Dose 2 · 42 day | **More suicidal thoughts, irritability, depression. Worsening cough, return of trouble breathing and needing to use inhalers** |
| **08/11/21**<br>Dose 2 · 3 month | Some horrible virus: fever, headache, fatigue, muscle aches. Felt like mini COVID. And then a massive panic attack that landed me in the ER. |

## CGD-60492-89120 4 tranches 22

| | |
|---|---|
| **05/21/21**<br>Dose 1 · days 1–6 | Depressed, feeling old like usual |
| **05/22/21**<br>Dose 1 · days 1–6 | depression no motivation |
| **05/25/21**<br>Dose 1 · days 1–6 | I been more depressed lately |
| **05/27/21**<br>Dose 1 · 7 day | I been depressed also been more sensitive oat and narcissism been kicking in. |
| **06/05/21**<br>Dose 1 · 14 day | I been more depressed also had strange sleeping patterns where I wouldn't sleep sometimes for almost a full 24 hour period. Tuesday and Wednesday nights, I slept a total of 4 hours combined with a 20 minute nap during the day on Wednesday. |
| **06/10/21**<br>Dose 1 · 21 day | **I been depressed had odd sleeping patterns, been had suicidal and homicidal thoughts. Covid vaccine is ruining my life. When you know your body and are in touch, you can tell when there is an imbalance.** |
| **06/17/21**<br>Dose 2 · day of shot | I been a little tired today. Two weeks ago, I forgot I became disorientated in a scary way where I got lost in one part of my home looking for something else normally in another part of the home. That never happened before. |
| **06/21/21**<br>Dose 2 · days 1–6 | I been tired or awake at both extremes. |
| **06/22/21**<br>Dose 2 · days 1–6 | pain in feet, cold, been depressed, had abnormal sleeping patterns, being awake extended periods of time, often for days. |
| **07/08/21**<br>Dose 2 · 21 day | More enhanced depressive episodes, felt narcissistic explosive anger, |
| **07/18/21**<br>Dose 2 · 28 day | Aside from excessive wait gain and increased depression symptoms I been reporting after vaccine dose 1, May 20 2021, I need to add intermittent aches and pain at injection sight, difficulty breathing at times. |
| **07/22/21**<br>Dose 2 · 35 day | Excessive wait gain |
| **07/29/21**<br>Dose 2 · 42 day | Fatigue increased anger and irritability, worsening depression symptoms, Extreme fever and chill feeling mimicking AD, more wait gain, about 10LBS in a week, high blood pressure.The CDC should not remotely consider approving these vaccines yet. |
| **12/16/21**<br>Dose 2 · 6 month | shortness of breath, memory problems, increased anxiety and nervousness,, irritability, attention problems, heart palpitations, somethings swelling up on my head that won't go away, but all bloodwork is normal for stuff that hasn't been normal. |
| **02/15/22**<br>Dose 3 · days 1–6 | I been having what can be described as hot and cold flashes. |
| **02/25/22**<br>Dose 3 · 14 day | Extreme cold heart palpitations, body aches |
| **03/04/22**<br>Dose 3 · 21 day | Chills body-aches, fatigue, memory problems, strange smell |
| **03/11/22**<br>Dose 3 · 28 day | I been jittery nervous had multiple hot/cold flashes perspiring on for-head. I been more tired than usual I take 16000 units of vitamin D daily. I have cold symptoms that aren't going away. I was healthier prior to taking Jab 1 on May 17 2021. |
| **03/18/22**<br>Dose 3 · 35 day | I've been having problems sleeping, hot and cold sweats/flashes. I would have extremes of either being overly tired or full of excess energy. I've had cold and flu symptoms, excessive high blood pressure and wait gain since taking jab 1 last May. |
| **03/25/22**<br>Dose 3 · 42 day | I have serious breathing issues that I didn't have before getting the experimental jabs. These jabs are bad I'm not going to be silent. The fight aint over to educate people that these vaccines are dangerous. Adverse reactions are real. |
| **05/14/22**<br>Dose 3 · 3 month | I am having breathing problems dailly |
| **08/14/22**<br>Dose 3 · 6 month | breathing and memory issues, arthritic issues, nerve pain urinary issues. |

## PJ4-14649-89986 22

| | |
|---|---|
| **05/21/21**<br>Dose 2 · day of shot | Just those three to start. Second injection was around 11 am 5.21.21.. I've slept three hours from 5 pm to 8 pm. |
| **05/22/21**<br>Dose 2 · days 1–6 | Not bad at all this second shot. The first shot worked me over pretty good. I've been plugging away at chores throughout the day and going to try and go to work for a little while. I took around 5 days off from the first shot. |
| **05/23/21**<br>Dose 2 · days 1–6 | Felt a bit more fatigued after dealing with a little extra stress from my line of work yesterday of which carried over today.. Took a nap today from 1pm hour to around 3:15 pm. There's a burning or tingling sensation at the tip of my tongue. Having weird dreams during sleep. Breathing is a little labored but, not bad. Facial complexion has changed and I now have racoon eyes. There was a little discomfort at right testicle then shifted to left testicle. Testicular discomfort now gone. There was a little discomfort at lower left abdomen that shifted to lower right abdomen and then went away and now back to lower left abdomen. Temperament seems to be changing and I'm managing that to " stay cool ". I don't have a fever or feel feverish but, I did take notice of a little increase in body temperature and I'm feeling a little more thirsty than usual. A little depression has kicked in and not sure if it's from what I'm going through with my work or the shot or just both. |
| **05/24/21**<br>Dose 2 · days 1–6 | **Noticed burning sensation center forehead around 3 am to 4 am. Noticed quick jolt of pain at right eye then inner left ankle within the same time frame. Still having a burning sensation at tip of tongue but, can taste. Body aches were mild but, reduced to mild after more rest and hydration. During same time frame 3 am to 4 am was hearing voices telling me to kill myself. Body temperature normal. Mild form of depression but, getting additional rest, hydration, nourishment and working in some small tasks are helping cope with that. Discomfort that was moving around at the lower abdomen area subsided.** |
| **05/25/21**<br>Dose 2 · days 1–6 | Mild joint pain and mild fatigue/tiredness. Something interesting that doesn't happen often is that I woke up with an erection from here to Sunday. It feels like my testosterone is boosted. Also, some of my skin peeled off my shoulder day of shot from removing bandaid. My arm had weeks worth of sunburn. Interesting is how fast the skin came back.. Still healing though. There might be something in the formula that accelerates skin cell growth ( if I said that right ). I just finished doing a little cleaning of my car and I'm ready to get out there to tackle the world. Facial complexion looking better, racoons eyes reduced and I seem to be a little more energetic. Urinary flow good, bowl movement good with a good full stool. There's something good going on with that shot. Thank you! |
| **05/26/21**<br>Dose 2 · days 1–6 | Joint pains and body aches now are just from aging and wear and tear.. Fatigue and tiredness that I'm currently having is from stress and dealing with pandemic stuff. My body has seemed to have gone back to normal and the positive effects/negative effects that I was feeling from the shot seemed to have worn off. |
| **05/27/21**<br>Dose 2 · days 1–6 | The two checked off aren't related to the shot.. Just age and wear and tear. Had a cough upon waking up this morning. Coughed up clear mucus with blood in the center of the mucus. Chest felt a little tight with a little pain. Had to blow my nose.. Blew out a little clear mucus with blood. I proceeded with my morning routine and prepared for work. During the beginning of my work, I noticed a little labored breathing with little circulation getting cut off to the head.. Minutes later I noticed some circulation getting cut off at my feet. What I did was move my body a little harder and make my lungs work w little harder during my physical activity on deliveries.. Drank some water, breathe fresh air and making my body sweat. Seems to be working out ok.. A nap would be nice. Lol.. I'm able to take myself to the doctor if necessary but, the financial means do not permit. I'll keep monitor and if anything I'll call 911.. 3 am to 5 am hour was woken to heart beating hard and a little fast. Not sure if I worked through a blood clot. |
| **05/28/21**<br>Dose 2 · 7 day | 3 am hour woke up and heart was beating hard like a drum and eyes were bloodshot pretty good. Conditions as described from yesterday improved. Yesterday ate ice cream for the first time in weeks upon weeks.. Lactose intolerance did not act up. Might |
| **06/19/21**<br>Dose 2 · 28 day | Mild type rash both shoulders where I received vaccines.. Few days ago felt something coming on and took notice of immune system kicking in doing it's job. I'm sure the vaccine played a role in fighting something off as well.. Thumbs up |
| **06/25/21**<br>Dose 2 · 35 day | I had dreams taking me to other dimensions.. God showed me heaven and that anything that I'm doing here on earth can also be done in heaven. |
| **07/02/21**<br>Dose 2 · 42 day | Some pressure at center of forehead a couple of days ago. Didn't feel like sinus pressure. Blew nose and some blood discharged with mucus. Was fine the next day. Some intermittent heart palps late night. Increased appetite. All not concerning to me. |
| **08/20/21**<br>Dose 2 · 3 month | Cardiac arrest a month and a half ago, mild cardiac arrest two weeks ago, less mild cardiac arrest earlier this week. I'll have my days where I'm conquering the world then other days where I'm bogged down and feeling slow.. Still trucking along. — In home doc visit. Doc recommends further evaluation. |
| **11/19/21**<br>Dose 2 · 6 month | I spit a chunk of phlegm in the toilet and placed a piece of toilet paper in the toilet. The phlegm was connecting itself to the piece of toilet paper and the phlegm was moving around on it's own. I captured a video... Pretty interesting. |
| **05/06/22**<br>Dose 4 · day of shot | Nothing as of yet today. 4th shot injected around 12 pm. |
| **05/07/22**<br>Dose 4 · days 1–6 | A little lightheadedness, not too bad. |
| **05/08/22**<br>Dose 4 · days 1–6 | A little cramping at abdominal, arms and legs ( last night ). A little light headed last night. Plus-ed up my hydration and got a little extra rest. While phlegm this morning swimming around in toilet by itself. |
| **05/09/22**<br>Dose 4 · days 1–6 | Mild muscle aches at legs muscles.. Hydrated up and the symptom subsided. |
| **05/10/22**<br>Dose 4 · days 1–6 | Heart was pumping hard earlier today and was not bothersome. Felt the need to get a little extra rest. |
| **05/11/22**<br>Dose 4 · days 1–6 | Felt a little something this morning. Little pain at injection site feeling like the vaccine is going to work. I'm fine and can function. Little fatigued earlier this morning and got a little extra rest. |
| **05/12/22**<br>Dose 4 · days 1–6 | Fatigue not bad. Tiredness caused me to sleep a little extra today. Muscle joint and body aches last night. Hydrated up and that helped. Felt a little stuffy this morning. |
| **05/13/22**<br>Dose 4 · 7 day | I felt some aches lower legs late night early morning. Icy sensation throughout body last night. |
| **05/20/22**<br>Dose 4 · 14 day | Low tolerance dealing with b.s. and I feel like kicking someone's ass. Supercharged sensation head to toe. Time is moving faster. Feel like being left alone so I can recalibrate. Elemental visit said sending me back out on the chase. |

| **01/16/21**<br>Dose 1 · 7 day | Depression |

## ZBH-23658-97279 3 tranches 8

| | |
|---|---|
| **01/12/21**<br>Dose 1 · days 1–6 | Feeling "woozy" after doing chores like washing dishes and taking the trash out. Almost like standing up too fast and getting light headed but not as severe. Also I feel lethargic and uninterested in doing daily tasks. |
| **01/16/21**<br>Dose 1 · days 1–6 | Unknown if side effect or quarantine life, but agitated more so than usual. |
| **01/17/21**<br>Dose 1 · days 1–6 | Just feel "sick" but it could be from having to work overnight when I normally work first shift. Plus well the rest of the house has what appears to be a cold (nasal pcr test pending) |
| **01/18/21**<br>Dose 1 · 7 day | My child is sick so while we await our COVID-19 test results, we think it is just a cold |
| **01/25/21**<br>Dose 1 · 14 day | I have diarrhea today, but I cannot necessarily contribute that to the vaccine. I also am on the tail end of a cold after testing negative for COVID-19. I will say the inject site felt sore today, but if I had to rate it from 0 to 10 I'd say 0.25. |
| **02/09/21**<br>Dose 2 · days 1–6 | Lack of appetite, last night my TMJ was acting up and prevented me from opening my mouth beyond half way. This is only the second time in my life this has happened. Overall I feel like a bus ran me over three to four times. |
| **03/23/21**<br>Dose 2 · 42 day | **It could be life, it could be the pandemic, but I'm finding myself spiraling into depression post vaccine. I have even found myself thinking about suicide. Not carrying it out, just something I find on my mind daily, when I did not before.** |
| **08/09/21**<br>Dose 2 · 6 month | Weight gain |

## 5UF-27267-55937 3 tranches 9

| | |
|---|---|
| **03/25/21**<br>Dose 1 · day of shot | Really woozy, kind of dizzy and mentally fuzzy |
| **04/27/21**<br>Dose 2 · days 1–6 | Major depression |
| **04/28/21**<br>Dose 2 · days 1–6 | Chest pain |
| **05/06/21**<br>Dose 2 · 14 day | Worsening joint pain .. Especially in my shoulder, wrists and hands/fingers |
| **05/13/21**<br>Dose 2 · 21 day | Racing heart, short of breath, feeling very hot from within — Referred to a cardiologist |
| **10/21/21**<br>Dose 2 · 6 month | Moderate pain in pelvic region Abnormal pap (negative for any CA markers) Pre-diabetic (new .. family has no history of diabetes) |
| **11/16/21**<br>Dose 3 · days 1–6 | I find that I'm a bit more irritated at things .. Short-tempered :( |
| **12/08/21**<br>Dose 3 · 28 day | Heart flutters and some chest pain. I have an appointment with a cardiologist tomorrow. These heart and chest pain started after my 1st dose. |
| **11/10/22**<br>Dose 3 · 12 month | **Severe depression and suicidal thoughts Leg pain and I don't have a reason as to why?** |

### 4ZY-16890-07765 3 tranches 6

## 7YE-55172-57949 4 tranches 7

| | |
|---|---|
| **04/09/21**<br>Dose 1 · day of shot | Im menstruating, if that matters. I started feeling a little lightheaded immediately after reading that I might feel lightheaded, and I cant tell if its a real reaction or psychosomatic. Its very mild either way. |
| **04/16/21**<br>Dose 1 · 7 day | Pressure in/behind one eye, dizziness (unclear that this is related to the vaccine. I have a history of migraines, although I havent had one in years.) |
| **04/23/21**<br>Dose 1 · 14 day | I had a migraine for the first time in years. As migraines go, it was pretty mild. |
| **05/06/21**<br>Dose 2 · days 1–6 | Severe emotional distress, not apparently caused by anything, coinciding with the start of my period but WAY more intense than usual for me |
| **07/31/21**<br>Dose 2 · 3 month | Ive had nasal congestion, post-nasal drip, and headaches. However, Ive also discovered mold in my house (UGH), so Im inclined to suspect thats the cause, not the vaccine. My understanding of VAERS is to report everything though, so enjo |
| **11/03/21**<br>Dose 2 · 6 month | **Deal w/ Pfizer's period stuff & NEVER omit period Qs from trials again! Since dose 2 I've gotten VERY depressed for 1-2 days early in my period. I cry so much I need >1 Gatorade. I even had suicidal ideation but luckily had preexisting coping skills.** |
| **04/30/22**<br>Dose 2 · 12 month | My breathing condition (that I've had since I was a kid in the 90s; not Covid/vax - related) has gotten worse over the past few months. I often struggle to feel like I'm getting enough air, and can't use my cpap bcz it's like drinking from a fire hose |

## 9H2-16253-53733 2 tranches 7

| | |
|---|---|
| **04/25/21**<br>Dose 1 · days 1–6 | **On friday(the day i got it), and saturday, I was extremely mentally unstable after receiving the vaccine. I felt really confused all day friday and then in the evening(and saturday, and today(sunday) it is a little less severe) I was really anxious and just overall really depressed. I had very negative thoughts along with suicidal thoughts. I do have major depression, however I feel as though the vaccine may have triggered a depressive episode. I think it is important that you know this information because other people with mental illnesses may have had the same experience, even though it is not listed as a common side effect.** |

## DCU-54401-02654 3 tranches 10

| | |
|---|---|
| **04/17/21**<br>Dose 2 · days 1–6 | Unique pain in my left hand, opposite side to the arm which received the injection. |
| **04/18/21**<br>Dose 2 · days 1–6 | I am still having a lot of pain in my left forearm, wrist, and hand. This began immediately after my first shot and has not stopped. When I got my 1st shot, I had a tingling sensation that traveled from the injection site down to the nerves and transplated tendons and ligaments, from my forearm to my hand. It has taken me back to an earlier stage in my healing process. I cannot do some of the things I had learned how to do again, without the old pain coming right back. This bothers me. I have worked so jard, and not this setback, and all the pain! I am so tired of pain! Ibuprofen helps best, bit tears up my stomach, so I can only use it for short times. Then, I switch to Tylenol, and have to take it for a while. It is very strange to have had this happen. It is as if the vaccine has traveled along the nerves of all parts involved in my hand surgery, which was extensive. Do you have any suggestions for me to try? Am I the only one with this problem? This virus and the vaccine for it is so weird. |
| **04/19/21**<br>Dose 2 · days 1–6 | No changes in the condition of my left arm,wrist and hand. It is the same as I have reported during every VSAFE check. The vaccime seems tonjave just settled in there. It is weird. |
| **04/20/21**<br>Dose 2 · days 1–6 | My forearm, wrist and hand on my left side STILL hurt from shot #1. I had surgery here, and the shot seems to have settled in this area. |
| **04/21/21**<br>Dose 2 · days 1–6 | My joint pain is in the arm where I got the first shot. It is constant in the area where I had extensive surgery involving my forearm, wrist and hand in late 2019/ early 2020. I am so tired of the pain. It is constant. I got the 2nd shot in my right arm, and have had no problems at all! I would love to speak with someone about what is happening with me. |
| **04/22/21**<br>Dose 2 · days 1–6 | Pain is lingering in the left forearm, wrist, and hand. This was the side of my 1st shot. As for my 2nd shot, all is well here. No problems with my 2nd shot. I'm still struggling with pain on my left side, from my 1st shot. I feel it is important for the side effect to be noted, and researched. |
| **04/23/21**<br>Dose 2 · 7 day | I have reported this side effect every time. My 1st shot was given in my left arm, where I had extensive surgery in 2019, followed by many complications. I had FINALLY made progress, until I got my 1st COVID vaccine. Now, I am back to constant pain! |
| **05/16/21**<br>Dose 2 · 28 day | The 1st vaccine was given where I had major surgery on my hand, wrist, and thumb, involving transplanted tendons, and ligaments. Instead of any injection site pain, the vaccine traveled down and settled in the nerves of the surgical area. Much pain!! |
| **04/16/22**<br>Dose 2 · 12 month | COVID-Omicron All regular signs and symptoms. Had been exposed. Tested false negative. Was treated for COVID-Omicron anyway. Was sick 1 month. After illness, developed edema in feet and ankles. Was miserable when I had regular signs and symptoms. |
| **10/24/22**<br>Dose 4 · 3 month | **On August 6th, 2022, I had a rare, but almost deadly reaction to my 4th COBID shot. I almost died. My Cardiologist has forbidden me to take any further COVID shots EVER. No matter what maker. No more COVID shots for me! I took the 2022 Pfizer vaccine — There was so much COVID, I was given a choice to go home, or be admitted. They only let me go home because I had a strong support system who was watching over me constantly. Otherwise, I would have been admitted to the hospital.** |

## Y36-25752-95760 2 tranches 11

| **04/18/21** Dose 2 · days 1–6 | Ocular migraines |
| **04/19/21** Dose 2 · days 1–6 | Headache and ocular migraine |
| **05/15/21** Dose 2 · 28 day | UTI — Urine test |
| **07/17/21** Dose 2 · 3 month | GI problem and pneumonia |
| **10/17/21** Dose 2 · 6 month | **Congestive Heart failure and respiratory arrest — Hospitalized for 11 days and 2 before that. Couldn't get afib under control had to get a pacemaker. I almost died.** |

## 7MW-23346-04639 2 tranches 7

| | |
|---|---|
| **05/15/21** Dose 1 · days 1–6 | Lymph nodes under left arm- one I had shot in seems swollen- but, Im doing good I reckon. Thank you. |
| **05/19/21** Dose 1 · days 1–6 | **Was seen as an outpatient at the local ER in Danville Arkansas because that is where my PCP called in my orders. As stated a while ago about the medication being on it a few weeks it wasnt all at the same time. I started one and then begin another and Im on both at this time and almost finished with them. I have not heard back as far as my test results from last night. Thank you again. — I have been having ongoing stomach troubles as well as what I felt was kidney problems and ended up going to the ER last night and having x-rays and lab work done. My PCP gave me a steroid shot that also had anabiotic in it. I have been on anabiotics continuously though this whole time because of my ongoing stomach issues. I nearly died in January Dash the 21st to be exact. I was in the hospital for four days and they are still trying to figure out what caused it. We do know it was not Covid I was tested both ways for it. Just thought Id better let you know. Thank you so much. Please let me know if theres anything else I need to do. I am also not sure what I should do because of the shot. But my guess is the anabiotic was (b)(6) myosin last night I dont know how to spell that. But Ive been on Flagyl as well as a Bactrim medicine for the last few weeks.** |
| **05/21/21** Dose 1 · 7 day | Think mayb |
| **06/06/21** Dose 1 · 21 day | I have been in hospital with small bowel blockage. But, hopefully will go home tomorrow without having to have surgery! Praise GOD!!! Havent gotten to get other shot yet. ?!?!? Thank you! (b)(6) — Not because of shot or CO-VID! Thank yall ! But more importantly- THANK GOD!!! |

| | |
|---|---|
| **03/02/22**<br>Dose 3 · 28 day | Felt Awful- started Sunday. Couldn't hardly walk at all. Had fever 101.5/ I never have fever even when sick usually. Went to ER after got neg. Home co-vid test. Blood work and all looked fine. They diagnosed as possible virus. Came home. Better! |
| **07/17/22**<br>Dose 4 · days 1–6 | I think these are from a cold /allergies I have. Not the shot! |
| **07/21/22**<br>Dose 4 · 7 day | Extremely sad last two days & don't know why. Keep crying! |

## 68R-20192-79299 6 tranches 10

| | |
|---|---|
| **01/07/21**<br>Dose 1 · days 1–6 | Dizziness, unable to focus, upper neck and shoulder pain |
| **01/20/21**<br>Dose 1 · 14 day | On Wednesday evening (1/13/2021), I noticed my left arm at the injection site was a little red and swollen about the size of a tennis ball, by Monday my whole upper arm was pretty swollen, warm to the touch & extremely painful. — I also asked the doctor I work for |
| **02/04/21**<br>Dose 2 · days 1–6 | I still have fog brain from the first injection. And feel like Im going to faint. I have cold sweats cant get warm. |
| **02/05/21**<br>Dose 2 · days 1–6 | **I feel like Im dying!!!** |
| **02/10/21**<br>Dose 2 · 7 day | I feel like my brain is foggy. Hard to concentrate and focus |
| **02/18/21**<br>Dose 2 · 14 day | I feel super foggy brain. My short term memory seems to be gone. I still have a lingering headache since the second vaccine. |
| **03/03/21**<br>Dose 2 · 28 day | I feel worn down. Achy body. I still feel fuzzy headed. Hard to focus still. Short term memory loss as well. |
| **05/07/21**<br>Dose 2 · 3 month | The arm I got the injection site is still pretty sore. And my joints ache. I still have brain fog. Also I have missed my period and its been consistently getting later and later. |
| **08/06/21**<br>Dose 2 · 6 month | Loss of memory. |
| **02/03/22**<br>Dose 2 · 12 month | Lost my sense of taste for 24hrs tested rapid and PCR both negative |

## FF6-30301-04810 4 tranches 9

| | |
|---|---|
| **02/14/21**<br>Dose 1 · days 1–6 | Despair |
| **02/16/21**<br>Dose 1 · days 1–6 | Loss of taste first 2 days-returning now |
| **02/18/21**<br>Dose 1 · days 1–6 | **I want to literally die I hurt so badly** |
| **02/19/21**<br>Dose 1 · 7 day | **I'm in so much pain I wish I could die. I cannot take the second dose even though as a T1 diabetic I know I need it.** |
| **02/26/21**<br>Dose 1 · 14 day | Severe pain, high blood sugars |
| **03/12/21**<br>Dose 1 · 28 day | TNTM |
| **03/26/21**<br>Dose 1 · 42 day | Pain in shoulder and scapula of injection site, pain in pelvis and hips |
| **05/16/21**<br>Dose 1 · 3 month | Pain that feels like ground glass in the left shoulder and scapula nearest injection site and same in hip joints |
| **08/13/21**<br>Dose 1 · 6 month | Pain in shoulder/scapula, both hips after receiving COVID vacciy |

## 5J9-10964-23647 5 tranches 8

| | |
|---|---|
| **01/19/21**<br>Dose 1 · day of shot | Weakness |
| **02/02/21**<br>Dose 1 · 14 day | SjÃ¶grens flare up |
| **02/16/21**<br>Dose 1 · 28 day | My dysautonomia has been awful. It was well controlled with medication before the 1st vaccine. Ive noticed that ever since the vaccine, all of my dysautonomia symptoms have been worse. I pass out often, heart races, etc |
| **02/18/21**<br>Dose 2 · days 1–6 | **I have blacked out multiple times since getting the second dose (I have dysautonomia that has significantly worsened since my first dose). My autoimmune issues have been awful. I feel like Im dying.** |
| **02/24/21**<br>Dose 2 · 7 day | My POTS/Dysautonomia has been bad since the first vaccine. I went to my cardiologist and pulmonologist today and they said the vaccine probably caused a flare up. |
| **03/10/21**<br>Dose 2 · 21 day | Bad headache, fatigue, swollen lymph nodes, ear ache. I dont think it is from the Covid vaccine, rather a flare up in underlying health issues (Sjogrens) |
| **11/17/21**<br>Dose 3 · 3 month | I have had intense migraines, I have struggled to think and form sentences. Not sure if it's from the vaccine or my underlying conditions (Sjogren's, pots, renal tubular acidosis) |
| **08/18/22**<br>Dose 3 · 12 month | PCOS, heart murmur |

## S3A-12693-62040 3 tranches 7

| | |
|---|---|
| **02/08/21**<br>Dose 1 · days 1–6 | Everything from my waist down was extremely painful. My roght leg felt like it was broken just below the knee I am waiting for TKR on. |
| **02/09/21**<br>Dose 1 · days 1–6 | Pain from the waist down and extreme pain in my toes! |
| **02/10/21**<br>Dose 1 · days 1–6 | **Almost called 911 but could not get to phone. Ski was completely colorless by the timeI could get to the phone, but figured theyd say theres nothing wrong and didnt want to leave my pets alone. I did think I was dying while it was happening. — I thought I was having a heart attack when the diarrhea and vomiting started I couldnt breathe and vision went white. Water ran out my nose. Later lungs, bronchial, throat, mouth went completely dry! I could barely breathe!** |
| **02/11/21**<br>Dose 1 · days 1–6 | Pain in my toes |
| **02/12/21**<br>Dose 1 · 7 day | Dizziness, nearly every day. I realized it is not on your list. |
| **02/26/21**<br>Dose 1 · 21 day | Headaches. Dizziness. Blurred vision with something brown INSIDE my eye in the middle of my vision. Hazy vision started with COVID shot! Have you made me go blind?!? — Referral to optic specialist! |
| **08/06/21**<br>Dose 1 · 6 month | I get little spot headaches frequently. They go as quickly as they come on.Dizziness frequently. I now get motion sickness riding in cars. |

## 2QC-26566-85119 3 tranches — 22

| | |
|---|---|
| **04/07/21**<br>Dose 1 · days 1–6 | Appointment for my dog — Tingling and heat on the skin. Mostly face and down armsto hands. Sweating at the top of my back below my neck |
| **04/08/21**<br>Dose 1 · days 1–6 | Itchy and really tired |
| **04/09/21**<br>Dose 1 · days 1–6 | No appetite |
| **04/10/21**<br>Dose 1 · days 1–6 | Im feeling better. But have had soreness in the injection site longer than any flu shot I have ever had. For over 20+years |
| **04/11/21**<br>Dose 1 · days 1–6 | My skin feel like it is burning again. Not the tigley too! Just the warm way warm sensation |
| **04/12/21**<br>Dose 1 · days 1–6 | I had a spot that was swollen and now I have a dime size red pimple and another on I can feel when I sit down. Both isolated. Not a rash |

| | |
|---|---|
| **04/13/21**<br>Dose 1 · 7 day | Specialty in person doctor appointment |
| **04/21/21**<br>Dose 1 · 14 day | I may have had a clot. I dont know. I had a swollen part on my leg and now Ive had this ugly red bump on the skin like I have never seen before. I had one day when my balance was way off and I was really unsteady. I fell a few times and injured my f |
| **04/27/21**<br>Dose 1 · 21 day | Ive had this bump on my leg on the surface for weeks. I just feel ill. Like Im toxic inside. |
| **05/04/21**<br>Dose 2 · day of shot | My arm where the injection was done. Left always. Seem to be really warm. The injection site at this time it is relatively minor. |
| **05/06/21**<br>Dose 2 · days 1–6 | Severe hot and cold. Muscle pains like I have never had. Feeling faint at times. |
| **05/10/21**<br>Dose 2 · days 1–6 | Overall dont feel well. I had extreme pain. Im hot and cold throughout the day and night. |
| **05/13/21**<br>Dose 2 · 7 day | Bleeding. Not sure if its from down there. Woke up with blood spots where I sleep and it the bathroom I had blood drips in the bowl |
| **05/18/21**<br>Dose 2 · 14 day | Depression. I still have muscle aches but somewhat of impairment of cognitive function and abilities. Ive cried more lately then in the last 20 years. |
| **06/01/21**<br>Dose 2 · 28 day | Glucose levels were better under control. Now they are not. Maybe other istigating circumstances. |
| **06/08/21**<br>Dose 2 · 35 day | I have an infection that wont heal!. Two is a matter of fact. I finally started to feed more normal. Yet Im having memory and healing problems. |
| **11/02/21**<br>Dose 2 · 6 month | Seems I have temperature fluctuations. Freezing, and sometimes really hot. Im having a little trouble between long term mempry and short term memory. I was always really sharp on that. My sleep and energy level changes drastically |
| **12/09/21**<br>Dose 3 · 7 day | **They thought I was going to die. Came and broke in my house — A very warm sensation from the injection site** |
| **12/15/21**<br>Dose 3 · 14 day | Left burning sensation under my left arm. Uncontrollable twitching in a small part of my leg, heart palpitations. 02 Level tanked. Blood pressure skyrocketed. Resting now. Missed an important drs. Appointment today. Which I have to pay for. Stable no — In person. Emergency personnel were called. I didn't go |
| **12/21/21**<br>Dose 3 · 21 day | Stomach ache. Blood pressure is still elevated. Ive eaten twice today. Both times I have a moderate stomach ache. Anxiety is elevated. Moderatetly. — Another more full exam on the 23rd |
| **01/05/22**<br>Dose 3 · 35 day | I had a few times where O2 low and blood pressure went was high. Ambulance was sent over, stable enough to stay home. After all the other symptoms I seem to now have high blood pressure. Always was 120/60. Now 145/85 or higher. Mostly higher 160/90 — Nurse line call in the evening |
| **03/04/22**<br>Dose 3 · 3 month | Seem to have high blood pressure readings pretty consistently. Thought it was temporary but still continues to check high. After I had the booster! I have no idea what else could have changed it in such a short time. Seriously is concerning me. |

## 7LZ-19468-78879 2 tranches 23

| | |
|---|---|
| **10/27/21**<br>Dose 1 · days 1–6 | Feel like i have a sunburn over entire body, medical providers (2) notified as i have autoimmune conditions. Hands, feet, and face swollen along with blurry vision and eye drainage |
| **10/28/21**<br>Dose 1 · days 1–6 | Sunburn feeling iver entire body, blurred vision and eye drainage, brwin fog, anxiety, difficulty sleeping, increased chronic pain and joint pain, pain in skin and hand and foot neuropathy |
| **10/29/21**<br>Dose 1 · days 1–6 | Extreme brain fog, sunburn feeling over entire body, sselling of feet, hands, face, and beck along with hot sensation and neuropathy. Insomnia but extreme exhaustion. Very short of breath, chest pain. Cannot afford copay for emergency room but need |
| **10/31/21**<br>Dose 1 · days 1–6 | Intense brain fog and confusion, and let me state that I am a HCW who runs the ventilators for patients but I couldn't figured out how to get gas into my car this week or remember the route ro work thst I've taken for months. Why are you asking me??? |
| **11/01/21**<br>Dose 1 · 7 day | **Extreme brain fog, confusion, anxiety, chest pain, breast swellimg, short of breath. Am I dying here?** |
| **11/08/21**<br>Dose 1 · 14 day | Worsening chest pain, fatigue and shortness of breath |
| **11/15/21**<br>J&J · 21 day | Chest pain, shortness of breath, elevated d dimer, extreme fatigue, pain, depression, anxiety, joint swelling, reactive lung nodules, autoimmune storm. Low potassium. Blurred vision. Back pain. |
| **11/22/21**<br>J&J · 28 day | Left sided xhest pain, increasing fatigue, joint swelling, shortness of breath, weight gain, brain fog. I am an autoimmune patient. Stop these mandates without data in my groups. I lost my job and insurance. |
| **11/29/21**<br>J&J · 35 day | Worsening brain fog and fatigue. Shooting pain in right back area and falls. Increased joint pain and swelling as I go off the huge amounts of steroids needed from the vaccine injury (all documented) Blurry vision — Visit with PCP andlab to recheck d dimer which was extremely high. |
| **12/06/21**<br>J&J · 42 day | Tingling and numbness in hands and feet. Lower back pain and weakness. Back spasms and falls due to back giving out. Increased shortness of breath |
| **12/25/21**<br>Dose 3 · day of shot | I only had one vaccine. How DARE you send me something telling me I'm eligible for a booster when I am STILL having effects from my vaccine on 10/25 and send it in Christmas day. I don't care IF it is automated, I should have been pulled from list. |
| **12/27/21**<br>Dose 3 · days 1–6 | Brain fog, memory issues. Being destitute from loss of job due to vaccine issues. |
| **12/28/21**<br>Dose 3 · days 1–6 | Brain fog |
| **12/29/21**<br>Dose 3 · days 1–6 | Brain fog |
| **12/30/21**<br>Dose 3 · days 1–6 | Brain fog, aphasia |
| **01/01/22**<br>Dose 3 · 7 day | Brain fog, aphasia |
| **01/09/22**<br>Dose 3 · 14 day | Numb hands and feet. Breast pain. |
| **01/22/22**<br>Dose 3 · 28 day | Worsening numbness of hands and feet. Increasing shirtness if breath and a twinge in my heart area. |
| **01/30/22**<br>Dose 3 · 35 day | Chest pain. Brain fog. Fatigue. Joint pain and swelling. Facial swelling. Numb hands and feet. |
| **02/05/22**<br>Dose 3 · 42 day | Brain fog. Fatigue. Rashes again. Bruises all over. Again. Joint pain and swelling. Facial swelling and drooping. Blurred vision. Numb hands abd feet. Why ask? You do nothing to help and minimize my reaction. This is 100% from the vax. In med records |
| **03/26/22**<br>Dose 3 · 3 month | Increased chest pains, coughing at night unless upright, bilateral pitting edema |
| **06/25/22**<br>Dose 3 · 6 month | Increasing cardiac issues, shortness of breath, joint pain, muscle weakness, fatigue, decreased kidney function. Inflammation. Absolutely this is related to the vaccine. This took me out of remission for my autoimmune condition. You should be ashamed |
| **12/26/22**<br>Dose 3 · 12 month | Skipped heart beats. Shortness of breath. Brain fog. — Specialist |

## 25M-66355-35119 3 tranches 18

| | |
|---|---|

## LLH-24487-59526 2 tranches 16

| | |
|---|---|
| **03/12/21**<br>Dose 1 · day of shot | I have symptoms of fatigue and pain but they are related chronic illness and have not escalated since the vaccine. |
| **03/13/21**<br>Dose 1 · days 1–6 | Joint and muscle pain are likely from my chronic illness. My base fatigue and weakness likely are as well, however i do have a sense that it is worse than normal from the vaccine based on timing and how it feels. |
| **03/14/21**<br>Dose 1 · days 1–6 | I have chronic illness which explains body aches and fatigue to some degree. However I do feel weaker than normal and a bit extra off. I've experienced some joint pain that feels abnormal for my chronic illness. I haven't had diarrhea but I have had frequent loose bowels. Generally I just don't feel great and don't see myself being able to do much today. |
| **03/15/21**<br>Dose 1 · days 1–6 | It's probably been 7 years since i've been feverish. My injection arm is no longer hurting but it's stiff. I always have fatigue from chronic illness but it continues to feel different post injection. Yesterday, due to weakness and exhaustion, i wasnt able to do anything until about 8 pm and even then i was limited. |
| **03/16/21**<br>Dose 1 · days 1–6 | Muscle pain and almost all fatigue now feel related to my chronic illness, only a tiny bit of fatigue and lethargy feels related tp vaccine (it feels different tram my usual fatigue. |
| **03/17/21**<br>Dose 1 · days 1–6 | I'm pretty sure that at this point my symptoms are all related to my chronic illness instead of the vaccine. I can't be a hundred percent sure as my illness is somewhat variable. |
| **03/19/21**<br>Dose 1 · 7 day | I think at this point my fatigue etc. Is almost all chronic illness related but the fatigue may be associated with the vaccine as i feel weak in a way i typically don't and that started within a couple hours of receiving the vaccine. It has been hard working this week, and i haven't been able to do all the work i wanted |
| **04/09/21**<br>Dose 2 · day of shot | I have some of the items listed but they are connected to chronic illness. |
| **04/10/21**<br>Dose 2 · days 1–6 | I typically have fatigue and pain from chronic illness but it is much worse than normal today. |
| **04/11/21**<br>Dose 2 · days 1–6 | Joint pain, muscle pain, and fatigue are likely related to chronic illness, not vaccine |
| **04/13/21**<br>Dose 2 · days 1–6 | I believe the diarrhea is vaccine related. I have some of the other listed symptoms but believe it's related to my chronic illness. That's also why i rate myself as feeling poorly. I feel pretty terrible almost every day. Maybe the CDC will finally recognize chronic Lyme at some point so that diagnosis and treatment options get better and i wouldn't have had to suffer 3 years in agony and excruciating pain without a diagnosis and have the Lyme so firmly in my system that it's so hard to treat after 7 years. But i digress. |
| **04/14/21**<br>Dose 2 · days 1–6 | I have symptoms that i believe aren't vaccine related but chronic illness related. |
| **05/02/21**<br>Dose 2 · 21 day | Increased joint pain. I have chronic health issues but have not experienced anything this intense in years. Yesterday i was on the ground outside the store crying because the pain was too intense to walk to my car. I needed a motorized cart. I'm 44. |
| **05/09/21**<br>Dose 2 · 28 day | Incredible pain, especially heel and joint pain. Cognitive challenges that make thinking exhausting. I have a chronic illness and my symptoms related to it have gone to a level that I have not experienced for years since before I started treatment. |

| | |
|---|---|
| **05/14/21**<br>Dose 2 · 35 day | **Went to urg. care and almost ER. Difficult focus, extreme brain fog, feeling gonna pass out, brain hurt, hard to describe. Felt like system shutting down and that i might be dying (i wasn't anxious). I have chronic health issues but this was bizarre.** |
| **05/23/21**<br>Dose 2 · 42 day | **Brain for terrible, cognitive functioning declining, feel like dying. Can barely function.** |

| **05/01/21**<br>Dose 1 · 14 day | Extreme weakness dizziness lethargic having problems focusing muscle aches and pain nervous system issues random tingling neck arm hands feet. This issue should have stopped me from working but i can't. |
| **07/17/21**<br>Dose 1 · 3 month | **Your vaccine destroyed my health my heart is permanently damaged my whole body is weak tired constantly sore worst headaches I've ever had in my life. I feel like I'm literally dying every minute of every day.** |

## XBH-28464-49740 3 tranches 9

| | |
|---|---|
| **08/22/21**<br>Dose 2 · days 1–6 | I had a Severe reaction to the 2nd shot. I ended up in the ER right after. |
| **08/23/21**<br>Dose 2 · days 1–6 | Anxiety feeling all through my body. I feel like I want to shake Tingley feenglish feet cold feet moving up my shinbones |
| **08/24/21**<br>Dose 2 · days 1–6 | Fatigue shaky pain behind my left eye Just not feeling myself |
| **09/01/21**<br>Dose 2 · 14 day | Burning pain in head and down left arm and left side of body. Neck pain and burning at base of neck and head. Burning ears and directly behind ears. Some muscel weakness in left arm. Just came from ER vist. |
| **09/08/21**<br>Dose 2 · 21 day | Still having neck burning pain. The pain is ridiculous I've never experienced this before. I went to the ER they put me on steroids it's not really doing much. I don't understand how all these nerve endings are so on fire. |
| **09/15/21**<br>Dose 2 · 28 day | Went to the emergency room . Burning numbness pin and needles pain in lower extremities and left arm. Is pain behind left eye. Face tingling. Is significant pain in cervical Spine. Looking for transverse militis. |
| **09/22/21**<br>Dose 2 · 35 day | Weakness of legs. Positive MRI for demonalization Of nerves in thoracic spine. Burning pain in spine , head Arms and legs |
| **11/17/21**<br>Dose 2 · 3 month | **Still having symptoms of transverse militis. I'm having to go for a nerve conduction study tomorrow. Pain and suffering wish I'd never got this Shot. No guarantees of not getting covid or dying from it. Worst decision of my life. And you guys have n — Neurologist office. Going for nerve conduction test. No compensation from you guys so thanks so much for spending all of my money. It's been really awful ever since I got that shot** |
| **08/20/22**<br>Dose 2 · 12 month | More neuropathy, pain joint pain worst decision ever to get vaccine |

## JWG-58024-83414 3 tranches 8

| | |
|---|---|
| **03/27/21**<br>Dose 1 · days 1–6 | heart palpitations last night, left hand involuntarily shook last night, and that scated me, pain behind my right jaw and then my left, |
| **03/28/21**<br>Dose 1 · days 1–6 | **heart palpitation/fluttering-2 episodes which are not normal at all for me-felt like I was going to die. Also had a weird feeling in my head-like a fuzziness/tightness in my head. Hard to explain.** |
| **03/31/21**<br>Dose 1 · days 1–6 | weird sharp pain in my right temple since around 1 om that keeps happening every so often |
| **04/01/21**<br>Dose 1 · days 1–6 | Yesterday I ha weird sharp shooting pain in my left temple and all along I have had pain in my neck like maybe a lymph node but today it got bad again. That started within an hour of the shot. |
| **04/02/21**<br>Dose 1 · 7 day | I got really shaky when I was just sweeping the floor. Started sweating, felt nauseated, and got really shaky and had to lay down. |

| | |
|---|---|
| **04/09/21**<br>Dose 1 · 14 day | I have had heart palpitations, pain in my chest like a heart attack-this is all new and started right after the vaccine. Muscle aches, etc as well but the significant thing it has done is affect my heart. |
| **04/23/21**<br>Dose 2 · days 1–6 | my knee did ache yesterday just like after first injection. I just didn't know because I was vomiting literally all day and had a headache but could not keep tylenol down. Had to get Zofran from my doctor. Today I felt pretty good. Honestly I think that my second inection was sub-q rather than intramuscular because my skin bumped up there after the shot and itched and my muscle really didn't get sore like last time. The nurse pinched the skin and def did not give it in my deltoid, was too far down and towards back of my arm. Rigt after the shot, I got hives on my left leg and my shingles rash that had cleared up a couple weeks ago in my back and my belly flared up again, and it had been cleared up for over a month. |
| **05/19/21**<br>Dose 2 · 28 day | nausea for days of unknown cause, Continued heart palpitations occasionally which I did not have prior to the vaccines, pain in my chest a couple times, Blood pressure elevated when it was fine before |

## JPJ-29660-38480 3 tranches 6

| | |
|---|---|
| **04/04/21**<br>Dose 1 · days 1–6 | Super mild nausea, so brief and mild barely worth mentioning |
| **04/05/21**<br>Dose 1 · days 1–6 | First night and second night/day some ear drum heat, mild pressure. Strange but very mild. |
| **04/06/21**<br>Dose 1 · days 1–6 | No, thank you |
| **04/25/21**<br>Dose 2 · days 1–6 | **No health care visit. Does anyone have a doctor they can just call and actually see, same day? This is a crazy question- peop have to wait one to two months to get to their docs. That includes telephone appts. — Dizzy shakey and faint when I tried to make tea. NEVER have felt such cold produced from within body - at one point felt like my feet were dying from cold/lack of blood. Headache present all day - also quite alarming- why intractable, what damage to brain? This second dose is no joke. Wonder if it is necessary to give such an amount to produce such extreme and long reactions.** |
| **04/26/21**<br>Dose 2 · days 1–6 | Sinus, throat, inner ears feel burnt and dry |
| **05/08/21**<br>Dose 2 · 14 day | Just, tired. |

## AJ8-16812-19178 2 tranches 6

| | |

| 04/23/21<br>Dose 2 · 14 day | **I got my second covid shot on the 7th of April..I got fever,sore arm a fever for two days. I felt much better but on the 13 I started feeling really sick. I got body aches,fever, I was in and out of bed for a week after that. I thought I die.** |

**6AB-27314-16960** 2

| | |
|---|---|
| 04/23/21<br>Dose 2 · days 1–6 | **The night of the second dose starting at 11pm and the full day after, I felt the worst Ive ever felt in my 48 years. Actually felt like I was dying. 103 fever, freezing cold to the point blankets and a heating pad wouldnt warm me up, skin hurt, hair hurt, every muscle in my body felt like I got hit by a car, excruciating headache (and Ive had chronic daily intractable migraine for 30 years), absolutely HORRIFIC. I cant say I would EVER get this shot again after experiencing this and because of my chronic pain condition I have a high tolerance for pain. In fact, one of the 8 prescriptions I am on is Oxycodone and that didnt touch the pain I felt from the second dose.** |
| 04/21/22<br>Dose 2 · 12 month | I'm not sure if I reported before but I've literally been exhausted since my shots. Next level exhausted. My family has noticed it too. I also had BRUTAL reactions to the shots. 103+ Fever, my everything hurtseven my hair hurt to touch and more |

| P2R-28337-42328 | 1 |
|---|---|
| **04/25/21**<br>Dose 2 · days 1–6 | **Metallic or similar bad 1. taste immediately after injection and still have it (almost 72h post vaccine), but it is somewhat diminished; 2. strange bluish black discoloration if the small toe on my left foot - not from injury - not sure which day it started, as this is 1st day out of bed to notice - THIS is terribly frightening until I stumbled on something called COVID toe and pix/description are exactly like my toe looks. My Grandmas toes turned black shortly before she went to hospital and found out she was dying. I will still make Dr.s appt., but if I had seen this as a very rare side effect or something, that would have saved some fright, tears, research and Dr. appt.; 3. Lightheadedness /dizziness from about 18h to 36 hours post vaccine** |

| 8KL-22155-27834 | 1 |

## Sources

**Data source:** CDC V-safe free-text survey responses produced under FOIA request 24-01322, published by ICAN at icandecide.org/v-safe-data: 1st through 11th Interim Releases, the 12th Final Release, and the 12th Under-3 release (updated files).

**Fields:** Symptoms description, other healthcare visits, and other systemic reaction. When one response filled more than one field, they are joined with a dash.

**Text:** Entries are reproduced as submitted, including spelling. (b)(6) marks CDC's redactions.

**Selection:** Keyword search for help, please help, help please, need help, dead, dying, die, died, passed away, deceased, death, suicidal, call me, contact me, and phrases such as “is anyone reading” and “no one has called.” Excluded: illness attributed to COVID-19 infection, entries the writer says are unrelated to the vaccine, scheduling and registration requests, deaths of pets or of relatives mentioned only as stress, and non-literal uses (“dead tired,” “dead arm”). For participants with more than one entry, every other entry is shown except one-word answers and entries under those exclusions.

**Matching:** Entries are grouped by V-safe user ID across all tranches. Response IDs are listed in the companion spreadsheet.
